Metal Roofs Aren't Created Equal

EVERLAST II IS BETTER:

- it is galvanized heavier, like old times.
- it is heat formed, less paint cracks.
- is cut while hot, prevents early edge rust.
- won't scratch as easy, paint is harder.
- won't bend or buckle as easy, stronger design.
- laps are tighter, and virtually invisible.
- nail/screws seal better, ribs fit tighter to head.
- zinc phosphate, not chromate under paint.
- still priced about the same or less.

EVERLAST II is excellent for houses and barns. **DOUBLE DIPPED GALVANIZED** is proven best for animals. **STANDING SEAM** is ideal for houses.

CAN ALSO BE PICKED UP OR DELIVERED FROM LEBANON PLANT

Everlast Roofing, Inc. Metal Roofing & Siding

The Ultimate G-100 Process "The Best"

- 1 Valspar 10S Finish Coat
- 2 Epoxy Primer
- 3 Zinc Phosphate Pretreatment
- 4 G-100 Zinc Coating
- 5 Full Hard Steel (80,000 min yield)
- 6 Heat formed less paint cracks

NOTE! It is more important what is under the paint than what you see on top!

- 1 One of the best paints, superior acid rain, cracking resistance and color retention
- 2 Primer coat promotes outstanding top coat adhesion
- 3 Zinc phosphate pretreatment This is a very important process - if your current supplier cannot supply you with this or does not know, you should reconsider
- 4 G-100 Galvanized Most metal roofing has approx 40% less galvanized under the paint G-100 is more galvanized than most unpainted panels
- 5 Full Hard Anything less than full hard will bend easier, lower snow loads, etc.
- 6 Heat formed Metal is painted before ribs are formed Most paint cracks at bends, heat forming greatly reduces cracks (check metal siding that is installed for 5-10 years)
- 7 Stronger design, superior strength, more metal per L F
- 8 Add Everything Together And Price Should Be \$53.37 Per Square. \$1.69 Per L F

OUR SPECIAL PRICE ONLY \$48.32 PER SQUARE \$1.53 PER LINEAL FT.
