

“When it’s all your own money, you can’t afford to make mistakes.”

81' x 23' Slurrystore® erected in 1996

“We looked at them all, then we decided to buy a Slurrystore. The people who laid out our Slurrystore were better than anyone else we talked to. They engineered it to suit us. And our Slurrystore is safe - we don't have any fences to maintain.”

“We were very concerned about agitating a manure system and we thought the Slurrystore had the best agitation system available. We have a 4,000-gal. spreader and we can fill it in two minutes. When we empty the Slurrystore, we can get it empty to within inches of the bottom. We've put nearly a million gallons per year through our Slurrystore and have not spent anything on service or maintenance!”
