Lancaster County Weekly Cattle

New Holland, Pa Report Supplied By USDA Friday, Nov. 7, 2003

CATTLE **CALVES** THIS WEEK LAST WEEK 2871 2027

This week in Lancaster County, slaughter steers kicked off the week trading mostly steady to firm. However, by Thursday the finished market took another noticeable swing as prices were a full 3.00-5.00 higher in New Holland on Thursday. The direct feedlots in Nebraska moved their black-hided steers 1.00- 4.00 higher, from 105.00-106.00 this week. Their dressed sales were 5.00 higher, from 165.00-167.00. However, cutout values have not been overly affected by the higher finished trade, as Choice cuts have been around 169.00. The Merc took note though, as it will take a few days of limitup gains to align the spot November contract (currently at 99.90) with the current cash trade. Back in the County, the number of finished cattle is remaining light Finished, there is a word that is being used more and more loosely. It used to be local producers would hold cattle until weighed from 1350-1450 lbs., they were high Choice and Prime, with a Yield Grade of 3 or 4 Now, they are coming through the sale ring weighing much less, most are average to low Choice, some are

Select, with Yield Grades moving down to

1 to 3 Although, who could blame pro-

ducers for putting them on a truck when

they are selling them at a live price that

they were getting for them dressed over

the past years That's not to say that there

are not some reputation feeders that are

holding them until they are ready, how-

ever, most kosher buyers would pay a

pretty penny for a map to these producers

farms. Holstein steers were in light supply

this week, and were never trended. Slaughter heifers sold mostly 2 00-4 00 higher late in the week. Slaughter cows sold fully 1.00-3 00 lower early in the week, with late week prices feeding off of the higher steer market, with bids 2.00-3 00 higher Slaughter bulls sold steady to 1.00 lower early in the week, trending steady to 2.00 higher late in the

caster County included 601 slaughter

steers, 127 slaughter heifers, 1159 slaugh-

ter cows, 201 slaughter bulls, and 479
