NDE
 NEW DIRECTION EQUIPMENT CO.
Time Is Money - Get More of Both!
 Calculate how many loads of feed you mix per day. Multiply that by the minutes it takes for each batch of feed. That is how many hours of tractor, mixing and labor you are spending on feeding your cattle per day. Consider this: An NDE mixer can mix a batch of feed 10-15 minutes faster than other mixers. Calculate your feeding time again using the reduced time of the NDE Mixer. What are you going to do with the time and money you save?
Prices Starting At \$16,990

Portable Tractor Saw
 Cut cordwood, pulpwood, firewood, ties or any other type of wood...anywhere Hook it up to your 3 point hitch, attach the PTO and move the Woodsman Saw to any location. As soon as you place a log on the sturdy 40" table, you'll get the feel of balanced-torque action. A light hand pressure moves the log into the blade, release the pressure and the spring loaded table rocks back on dual roller bearings, ready for the next cut. Built on a rugged steel frame, the Model 250 is engineered for years of heavy duty use.

Model 250 Specifications
