Pay the most — also paying more for materials brought to me. Also selling materials!!

Metal Roofs aren't Created Equal

Everlast II is better:

- it is galvanized heavier, like old times
- it is heat formed, less paint cracks
- is cut while hot, prevents early edge rust
- won't scratch as easy, paint is harder
- won't bend or buckle as easily, stronger design
- laps are tighter, and virtually invisible
- nails/screws seal better, ribs fit tighter to head
- zinc phosphate, not chromate under paint
- still priced about the same or less
- picked up or deliver from Lebanon plant

Everlast II is excellent for houses and barns.

Standing seam is ideal for houses
