

Select Sires Honors (Continued from Page 17)

penetration in their assigned areas and expand the services that they offer to their existing customers. The managers of the 10 Select Sires member cooperatives and Select Sires Canada choose both sales representatives and technicians from their organizations to receive this award.

Some winners manage small sales areas with high cow concentrations, while others travel across several counties to service their accounts. In all situations, the Super Achievers have shown untiring energy, product knowledge and, most importantly, a devotion to helping customers succeed.

Select Sires Super Achievers include Don Davis,

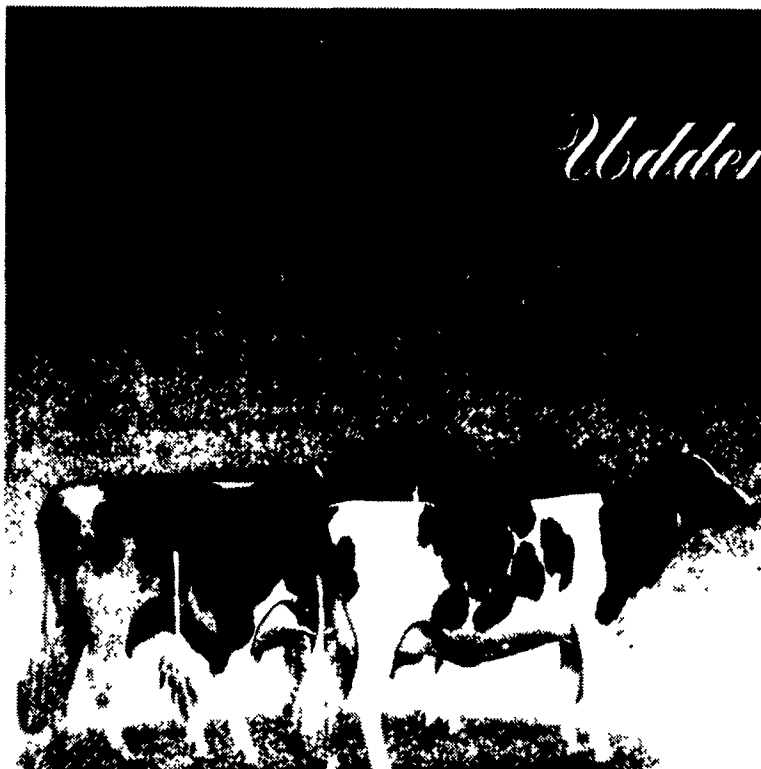

Hilmar, Calif.; Lorin Smart, Wallsburg, Utah; Jeff Jackson, St. Marys, Ontario; Jan Sas, Keswick Ridge, New Brunswick; Mark Long, Lima, Ohio; Mike Long, Maria Stein, Ohio; Kurt Barnes, Keil, Wis.; Jay Ludeman, Lake Mills, Wis.; Howie Minnema, Fond du Lac, Wis.; Paul Kiesler, Borden, Ind.; Steve Dockendorf, Cold Spring, Minn.; Chris Suess, Stewartville, Minn.; Terry Kraning, Seymour, Wis.; Jason Ossmann, Greenleaf, Wis.; Gary Brummer, Effingham, Ill.; Monty Kuhn, West Union, Iowa; Rick Krall, Lebanon, Pa.; Mark Sherwood, Freedom, N.Y.; and Marvin Beiler, Ochlocknee, Ga.

Forage Composition Library Website

ITHACA, N.Y. — Feeding quality forages is the first step in designing and delivering a balanced ration for optimum health and production. The Dairy One website, www.dairyone.com, offers a complete Forage Composition Library (FCL) to help make the most of your feed ingredients. The FCL summarizes analyses performed by the analy-

ses performed by the lab for more than 220 different feed types with the ability to view data by crop year or as cumulative totals. The comprehensive system is flexible and easy to use with data broken down into the following categories: hays, silages, fresh forages, and energy and protein feeds. More than 60 nutrients are posted for each feed.
