Penn State Dairy And Animal Science Department History Online

UNIVERSITY PARK (Centre Co.) — Alumni, stakeholders, and friends of Penn State's Department of Dairy and Animal Science can immerse themselves in a long and distinguished history of contributions to the science and practice of dairy and livestock production.

The History of the Department of Dairy and Animal Science is available on-line at HYPER-LINK "<http://www.das.psu.edu/history/>" [www.das.psu.edu/history.](http://www.das.psu.edu/history/)

The product of a committee of seven emeritus faculty, the history describes the origins of animal research and extension activities at Penn State when Dr. Henry Armsby became Director of the Agricultural Experiment Station in 1887.

The story continues to the present, highlighting the many achievements in research, extension and education; the evolution of the department; and the many people that made it all happen.

Thinking of expanding or remodeling your dairy facility?
