

# PACER

**3.5 HP Briggs**  
Part# B500122  
Size 2"

Suction Lift Up to 25 feet  
Max Flow 230 U.S. GPM  
Engine 3.5 HP Standard B & S

**\$229.00**

**5.5 HP Briggs Intek**  
Part# B500126  
Size 2"

Seal Protek double seal  
Suction Lift Up to 25 feet  
Max Flow 230 U.S. GPM  
Engine 5.5 HP B & S Intek® OHV

**\$329.00**

**5.5 HP Honda**  
Part# B500127  
Size 2"

Seal Protek Double Seal  
Max Flow 230 U.S. GPM  
Engine 5.5 HP Honda OHV

**\$579.00**

**Pacer Hand Pump**  
Part# B500124 Fuel Pump  
Part# B500125 Chemical Pump  
Approx 1 Qt per cycle

**\$70.20**

## RAVIN INDUSTRIES

### FLOMAX 220 FLOW METER

The new Flow Max 220 digital Flow Meter makes monitoring flow from the nurse truck to your sprayer easy and convenient. Flow Max's digital display is easy to view and the controls are located directly on the meter, right where you need it.

- Features
- Mounts "in-line" to monitor flow rate accurately
  - Easy-to-read digital display
  - Weather resistant enclosure
  - Total volume measured
  - Sub volume measured
  - No additional cables needed
  - Part# 07.07827

**\$589.00**

Reg \$690.00

## TURBO DROP

- Wide Drive Control Range: 15-80psi (4-20 bar range)
- Allows doubling GPA rate with same nozzle without slowing down.
- Wide Pressure Range: 15-120psi. Smaller droplets at higher pressures.
- Separate Injector Comes apart by hand, easy to clean (no tools required).
- Patented Stabilization Chamber Even and uniform mixing of air with liquid which gives a smaller droplet spectrum and a homogeneous spray solution across a wide pressure range.
- Excellent With Rate Controllers Wide pressure range allows greatest speed variations.
- Improved Coverage, Reduced Runoff Air flow spreads over the target surface rather than bouncing off.

- Interchangeable Nozzles Two spray nozzles per Turbo Drop may also be used.
- Proven TurboDrop Technology Over Five Years in 38 countries.
- Longer Wear Life Lower operating pressure & thicker metering orifice compared to other venturi nozzles.
- Patented Pulsation Damper Stable, uniform spray pattern across pressure range.
- Versatile Variety of Applications Recommended for herbicides, fungicides, insecticides, fertilizers, growth regulators, etc.
- More Spray in Target Dramatic reduction of 25-50% nozzle runoff, much in higher winds.

## RAVIN INDUSTRIES

Features.

- Easy to read 28 digit display
- Ground speed compensated automatic rate control
- One time, easy programming
- Cumulative TOTAL VOLUME applied and TOTAL AREA worked for record keeping
- Digital boom pressure readout
- Low tank fault alarm
- Automatic Rate +/- PWM Valve Control Option
- Control valve delay
- Zero speed shut off
- Low limit flow rate option

### SCS440 SPRAYER CONTROLS

Raven's SCS 440 sprayer controller provides precise automatic rate control for up to three boom section inputs. Two separate application rates can be pre-programmed and selected 'on the go' with a simple flip of a switch. The SCS 440 is compatible for variable rate application and data logging.

Part# 07.96155

**\$1995.00**

Reg \$2385.00

## CALC-AN-ACRE LR

PART# 01000  
**\$249.00**

Accurate speed, area and distance measurement  
The original low cost acre counter now has even more features and a rugged new design

- Large readout with lighted liquid crystal display for night use
- New Area Per Hour and Accumulated Hour Functions to track progress, plan work and schedule maintenance
- New Width Reduction Function to measure the effective area of active boom sections and partial pass tillage operations
- Push-button Run/Hold

Optional remote run/hold sensor kit allows for hands-free operation  
Includes Hall-effect speed sensor, mounting hardware and weather-proof connectors

## GREENLEAF

### AIR MIX

- Reduces drift by 50-80% when compared to conventional low drift nozzles (link to chart)
- Operates at lower pressures. Optimal pressure is 20-60 psi; overall range is 15-90 psi (great with rate controllers).
- Fits standard caps; can be used on all types of sprayers.
- Most economical air injection nozzle.
- Unique patented air cleaning system - prevents air line plugging.
- Compact size - 7/8" long.
- Excellent coverage - proven in 20+ years of field testing.
- No tools required for cleaning.
- Lasts longer than other air injection nozzles because of patented air cleaning system.
- One nozzle makes spray.
