East Fluid Milk

seasonal levels. Fluid milk supplies, ber This price drop is not enough to though tight, are not as tight as they have make Class III wet solids competitive with NDM Sales of Class II condensed been Most contacts report the milk supskim are steady and mostly contractual plies over the holiday weekend were up slightly, but easily cleared. The extra milk The fluid cream market is not quite as was welcomed by most manufacturers strong now that supplies are a little more Class I milk sales are slower at retail, but in balance Spot prices are often higher as the CMF butter average last week inbottlers are busy refilling school lunch pipelines Florida's need for milk fell to creased more than two cents and multizero this week; handlers carried heavy inples are little changed from last week Deventories into the new week and orders mand is good and any offerings are easily from bottlers have been lighter than excleared Some contacts feel that the normal post-Thanksgiving lull in demand pected Contacts expect that they will again import some milk next week, but so will not be seen this year because cream far, milk supply and demand are nicely was so tight during the weeks leading up balanced to the holiday. They feel that users were In the Mid-South, predictions of the so far behind on their year-end orders season's first ice/snow storm have given a that there will be little slow down in deboost to bottling and orders from retail mand. Some suppliers note that more outlets. Surplus milk supplies are not as loads are available from their regular tight and plant contacts are happy to see sources. Cream cheese production is the extra milk. However, if normal patsteady to heavier this week. There have terns are followed, volumes may again been reports that some cream cheese tighten until mid-month. Most butter/ makers have been, and are allocating outpowder plants did have extra milk over put because of the lack of cream in Nothe holiday weekend and those plants vember. Egg nog production is slower, but that were shipping to Florida had quite a producers are eager to get back on line to fill Christmas/New Year needs. Producbit more milk. Southeastern manufacturing plants ran a little heavier, but all the tion of sour cream, dips, bottled and aerowas handled by those operations milk sol cream is seasonally heavy. Ice cream that had been running all fall. Seasonal production is moderate to heavy as some plants build inventories ahead of planned balancing plants remain shut. The condensed skim market is little shut downs during the year-end holiday period. Churning is up slightly at some plants

### And Cream Review Madison, Wis. **December 3, 2003 Report Supplied by USDA**

SPOT PRICES OF CLASS II CREAM. dollars per lb butterfat FOB producing plants Northeast 16387-18949 Delivered Equivalent Atlanta 17115-19071 mostly 1 7604-1 8949

PRICES OF CONDENSED SKIM, dollars per lb wet solids, F.O B produc-ing plants Northeast: Class II, includes monthly formula prices: .8700-9300. Class III, spot prices: .9800-1.0600.

SPOTS SHIPMENTS OF GRADE A MILK FLORIDA: This Week: In 0; Out 0, Last Week. In 23, Out 0; Last Year In 26. Out 0. SOUTHEAST STATES This Week: In 0, Out 0; Last Week: In 0, Out 0; Last Year: In 0, Out 0.

EDITOR'S NOTE: Due to changes in milk supply agreements, milk import/ export totals are not directly comparable to year ago figures and to shipments prior to April 1, 2003

Milk production is mostly steady throughout the region. Colder weather in Florida and other Southeastern states seems to have slowed the gains seen during the past few weeks. Milk output is still increasing, but at a slower pace. Farther north, milk production is steady at typical

changed, but December's Class III formula-price is down quite a bit from Novem-

#### **Prices Highlights** Washington, D. C. November 28, 2003

#### **Report Supplied By NASS/USDA** DAIRY PRODUCTS HIGHI IGH IS.

Cheddar Cheese prices received for US 40 pound Blocks averaged \$1.44 per pound for the week ending November 22. The price per pound decreased 8.0 cents from the previous week.
