THE UNION PACIFIC BAILROAD-550 MILES COMPLETED.

We learn that the Union Pacific Railroad is being pushed forward this year more rapidly than ever. A much larger force will be employed upon it during 1868 than ever before. Rockcattings have been continued in the Laramie Mountains during the entire winter, and there has been much less snow there than in the latitude of New York city. Not less than 8,000 additional laborers will be in the field this senson, besides 2,000 mechanics bridge builders, iron workers, &c. There will also be 2,000 teams, with the necessary horses and mules for the plows and scrapers, and not less than 1.500 wagons and carts. Much of the lumber for bridges, ties, &c., is already cut, and saw-mills and shops are busy in turning out the mechanical appliances for the great work. Iron sufficient to hy 200 miles of additional track has already been delivered on the ground, and there is every prospect that not less than 300 miles more road will be finished during the present year. We learn that 550 miles west from

the locomotive, followed by its long achievement'ds something to be proud -Howe, of, and gives good promise that eight In placing the illustrious names to nine hundred miles of the castern above at the head of our columns, we end of the line will be in running order perfect the intention of two year's con- during this year.
