FINE CARD AND BILL-WORK! ARTISTICALLY EXECUTED !

Miseellaneous.

THE UNION PACIFIC RAILROAD COMPANY

OFFER A LIMITED AMOUNT OF THEIR FIRST MORTGAGE BONDS

AT PAR, PAYABLE IN GOLD.

The Great Pacific Rathroad Line, extending 1721 miles from Omaha, on the Missouririver; to the tide-waters of the Pacific Ocean, is being built by two powerful Companies—The UNION PACIFIC, beginning at Omaha, building West, and the Central Pacific of California, beginning at Sacramento, building East, until the two node shall meet.

Both Companies have prosecuted the work with great vigor, the Union Pacific having al-

ready expended over

THIRTY MILLION DOLLARS, and the Central over Twanty Millions, upon their respective parts of the undertaking. The Union Pacific have completed 550 miles—have ron and other materials for two hundred miles more upon the ground, and one hundred additional miles are ready for the track. They will have a much larger force employed this year than ever before, and it is expected that between

800 AND 900 MILES will be in operation during 1868. There seems to be no reasonable doubt that the distance be-tween Omaha and Sacramento will be inversed

by rail in 1870. THE GOVERNMENT GRANTS 12,800 acres of land, and its Bonds to the average amount of \$28,900 per mile, to aid in the construction of the line, and authorises the issue of the first mortgage Bonds now offered for sale, to the same amount and no more. The Government takes a second lien, and gives to the First Mortgage Bond-hoiders a prior lien for their security, to which a large paid-up capital is added. The Bonds cannot be issued except as each section of twenty miles is accepted by Government commission, so that they always represent a

real property.

It is universally admitted that on the completion of the Union Pacific Railroad, its through business will make it one of the most profitable in the world-but its way or LOCAL business is already several times the interest on its bonds so that, if not another mile were built, they would be a seenre investment.

THE NET EARNINGS for eight months of last year on an average of \$38 miles are officially reported at \$1,969,185, while the interest on all the Bonds it could base on that length of road for that time, reduced to currency, was only \$845,550. The amount paid by the Government for the transportation of troops, munitions, stores and mails has been, and doubtless will continue to be much more than the interest on the United States Second Morigage Honds. If it is not, the charter provides that after the road is comple-ted, and until said bonds and interest are paid,

at least five per cent, of the net carnings of the road shall be applied to such payment. The Union Pacific Bonds are for \$1,000 each and have coupons attached. They have thirty years to run, and bear annual inter est, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent, in gold. The Principal is payable in gold at maturity. At the present rate of gold, these bonds pay an an

nual income on their cost of NEARLY NINE PER CENT, and it is believed that they will soon he at a premium.

The Company have but a very limited supply The Company have but a very limited supply of their Bonds remaining on hand, but any subscriptions accepted to a greater amount than can be flight from Bonds now in the Company's possession, will be supplied from the New Bonds to be issued on that portion of the road completed in the Spring, in the order in which they are received.

The Company reserve the right to advance the price of their bonds to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance.

Parties subscribing will remit the par value of

the bonds and the accrued interest in currency at the rate of six per cent per annum, from the date on which the last coupon was paid. criptions will be received in Waynesburg, Pa., BY THE FIRST NATIONAL BANK In New York AT THE COMPANY's OFFICE, 20 Nassau St.

JOHN J. CISCO & SON, Bankers, 59 Wall St. And by the Company's Advertising Agents throughout the United States. Remittences should be had in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to

them for their safe delivery. A PAMPHLET AND MAP for \$65 has just been published by the Company, giving fuller information than is possible in an advertise-ment, respecting the progress of the work, the resources of the country traversed by the Road, the means for construction, and the value of the bonds, which will be sent free on application at at the Company's offices or to any of the adver-

Sewing Machines.

tised agents.

THE WORLD RENOWNED SINGER

OUR NEW FAMILY MACHINE.

Has been over two years in preparation, and which has been brought to perfection regardless of time, labor or expense, and is now confidently presented to the public as infomparably the best Sewing Machine in existence.

The Machine in question is simple, compact, durable and beautiful. It is quiet, light running and capable of performing a range and variety of work never feore attempted upon a single Machine—using either Slik, Twist, Linen or Cotten Thread, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the unique, useful and popular folding tops and cabinet cases peculiar to the Machines manufactured by this Company have been prepared for enclosing the new Machines. These are gotten up in every variety of wood, such as Black Walnut, Manogany, Rosewood, and the like, and from the plainest to the most elaborate pattern and finish—the Machines themselves being more or less highly ornamented, to correspond with the Tables or Cabinets for which they are intended.

A few reasons why SINGER'S latest improv-

A few reasons why SINGER'S latest improved SEWING MACHINES are the best for Family and General Purposes.

1st. You can sew anything from the finest single thickness of Swiss or Nansook to several thicknesses of the heaviest Beaver cloth, using any kind or size of thread with equal facility, from No. 269 Cotton up to the heaviest patent or Linen thread.

2d. It uses a short, straight needle, easily set, and makes the popular Lock Stitch alike on both sides.

sides.
3d. It has an even self-adjusting tension which requires no change for different thicknesses of material or different sizes of thread.
4th. It is free from all springs, wires and other complications, and is almost neiseless.
5th. No threads to hold or wheels to turn in starting. 6th. It does not have to be taken apart to oil Sth. If does not have to be taken apart to oil and clean it.
Th. It has a perfect feed whereby you can sew the finest materials without having to keep your work stretched to prevent its "puckering," and you never have to assist the work through as in all other machines.

Sth. It will hem any width, sew a straight seam, or make a sell in the most perfect manner, with less skill than is required to sew a straight seam on any other meshine.

Its attachments for Braiding, Cording, Quilting, Binding, Tucking, &c., are novel and practical, and require but little skill to use them.

Careful instructions given at the house of the purchaser.

Money refunded if the machines are not as Every machine warranted and kept in repair hree years without charge.
