

The Waynesburg Republican.

NOTICE TO ATTORNEYS.—Attorneys will be held responsible for Paper Books, Advertising and Job Work, ordered by them and not paid for in advance. Such bills to be collectable on demand.

NEW ADVERTISEMENTS.—The attention of our readers is specially directed to the following advertisements, which appear for the first time in our paper to-day.

Good Lot.—A splendid lot of new carpets, floor oil cloths, window blinds, very cheap, at Frank McGurgan's.

Persons desiring a sound and systematic education, are advised to go to Edinboro. In many respects its advantages are unsurpassed.

Persons intending to teach School, should if possible, spend one term at the Normal School, at Edinboro. It will prove of great value to them.

CLOSING OUT.—Frank McGurgan is closing out his entire stock of Summer Dress Goods ladies' trimmings, hats and millinery goods, clothing &c. Give him a call!

TO STUDENTS.—For cheap boarding with superior educational advantages, we invite attention to the card of Greene Academy under new advertisements.

SIX STRUCK.—Two of our young married couples, last week, were presented with six strokes. They are fine specimens weighing about eight pounds each.

SIXTEEN DEATH.—We learn of the sudden demise of one Alzora Rice, of Whately work, on Sunday morning last. He had toiled the day before, in good health, harvesting.

It is the bouhair and the dressing-room, one perfume reigns supreme. Passion's "Flor de Mayo," the new perfume for the handkerchief has no rival in any home where taste presides. Sold by all druggists.

GOOD LUMBER FOR SALE.—Mrs. Elizabeth M. Rice, of Newton, Whately tp., has a large quantity of the best sawed lumber for sale. It is mostly seasoned and well adapted to furniture making.

THE SCHOOL CALENDAR.—Is the name of a lively sixteen page monthly edited by J. A. Bradgrass & M. B. Sloan, at No. 11 Fifth St., Pittsburgh, Pa. It is a paper for the school and family. Send for a specimen copy.

THE ATLANTIC.—This monthly for August is filled with interesting matter. Parton contributes a good article on the question, "Will the Coming Man Drink Wine?" Send for a copy to Tickner & Fields, Publ., Boston, Mass.

MILL PROPERTY FOR SALE.—Attention is called to the advertisement of the sale of the Waynesburg Steam Mill. The mill has earned more money in the last two years than is now asked for it. It is a splendid investment for somebody, just at this time in the year.

CAMP MEETING.—Mr. Morris circuit and surrounding charges under the pastorage of Rev. M. E. Eaton, will hold their annual camp meeting on the ground occupied last year and on a half mile east of Mr. Morris, beginning Sept. 10, 1888. A general invitation is extended to all.

THE UNIFORM.—It has been decided by the National Executive Committee of the Boys in Blue, that the Uniform of the organization shall consist of a blue forage cap, a blue cape and a torch. This will be a neat uniform, and we hope soon to see a club organized in Waynesburg.

BEHIND BY LIGHTNING.—Last week during the prevalence of a thunder-shower, the lightning struck two grain stacks belonging to Mr. Ed. Smith, who lives near the Poor House, and entirely consumed them. We learn that the gentleman has been unwell and unable to work for some time, and as a consequence the loss will fall heavily on him. The stacks contained two hundred dozen of wheat.

SCOTT AND DICKENS.—Special attention is directed to the advertisement elsewhere of D. Appleton & Co., Publishers. They offer the best of literature at rates astonishingly low. The complete works of both the above authors with a portrait of each, suitable for framing for \$10.00. The books are printed in good style, and of equal sized pages that it may be bound two or more volumes in one. It is a prize for the lover of excellent reading.

FAIR VEGETABLE.—Fifteen hundred and fifty dollars have been subscribed to getting up our Waynesburg Fair. At a meeting of stockholders last week, Committees were appointed for leasing the grounds and putting things in shape. The grounds, we are informed, will be east of Slates lane, and adjoining, one of the finest locations to be found anywhere. You may bet high on the Fair being a fact. Greene county will then have four Agricultural Fairs, but the one at Waynesburg is to eclipse all.

SUMMER VACATION.—The school of soldiers' orphans, at Uniontown numbers about three hundred scholars, and under the charge of Mr. Waters, is said to be in a flourishing condition. They left for their homes on Thursday last having a vacation of six weeks granted them. Before departing they gave three routing clerks for Grant and Colfax. The boys recognize in them the leaders of the cause for which their fathers fell—the nation's legacy of freedom "bequeathed from bleeding sire to son."

THE CHARTERS VALLEY R. R.—Two hundred and fifty-five thousand dollars are subscribed toward the completion of this road between Washington, Pa., and Pittsburgh. Three hundred thousand was the amount to be raised before work was commenced, but the Penna. Central R. R. Co., express themselves ready to go on with the project with the present subscription, if releases of way can be obtained, and the matter put in such shape as to secure them from litigation. Part of the road is already being engineered for letting.

DEMOCRATIC CONFERENCE.—The Democratic Conference, of this District, met at the St. Charles Hotel, Pittsburgh, last Thursday, and adjourned over to await the action of the Republicans. We hear that David Crawford, Esq., of our town, received six votes in a little skirmish balloting that was done. This may "dave" get the compliment of nomination as "any other man" who has made up his mind to be a martyr for Democracy. Each of the four counties presented a candidate.

THE CONFERENCE AGAIN.—On Tuesday last week our Conferees met again at the Monongahela House in Pittsburgh and balloted for two days without a choice. The second day Washington county voted several times for Wallace, and Beaver voted steadily in the afternoon for Donley. They adjourned to meet next Thursday week. The complexion put upon Congressional matters is extremely embarrassing. Now when it is too late, the remedy is clearly discerned. It has been frequently remarked in our hearing that had Greene county presented a solid front at the Conference there would have been no difficulty in securing for her the nomination. This we foresee and deplore weeks ago. Immediately after the nomination of our candidate, judging from the disapprobation expressed on all sides at the manner in which the nomination was brought about, we suggested the calling of another convention composed of delegates elected and instructed by the party in the county with a full understanding. This was done in perfect candor, not from spite as has been charged by some, for why should it concern us who the county nominates, if only a sturdy, straight forward Republican? The good of the county was uppermost in our mind, and we should like to have seen the matter fairly contested which would as certainly have contributed to our success in the District Conference. Blame may be charged where you choose, but it seems patent to the observer that if Greene County must yet bide her time, we have no need to go outside of the county for the cause.

PATENTS.—The following sensible item is from the *Agriculturist*, for August. The advice should be acted on by our farmers everywhere: "S. D. A., Ohio, sends us specimens of a bent up wire for supporting plants, says he is negotiating for a patent, and asks our opinion. We think for many things the patent will work well. But why patent it? It is strange that men who are freely using all of the contrivances of those who have preceded them, are unwilling to add to the common stock of knowledge, but the moment they hit upon a simple expedient must go and patent it. It is a thing as cost and time and inventive thought, we think it should be patented, but when one has something as simple as a bow knot, a mercurial wire, we think it folly to patent it. If one has a wire and chooses to twist up in the way our friend has done, we don't think there are twelve men in the country who, on a jury, would award him damages. This patent business has been to use a vulgarism, "run into the ground," and unless something like sense can prevail at the patent office, the people will insist upon its abolition. Persons claiming patents for the simplest contrivances given in the journals are constantly annoying farmers with threats of prosecution. Have a Farmer's Club in every neighborhood; tell these fellows to prosecute, and make a common cause for the defence. Very few suits will ever come to trial when it is found that the game of "bluff" will not work.

A GOOD SCHOOL.—We have received the Catalogue of the State Normal School at Edinboro. On the front side is a Classified Table of Contents, and on the back cover a Students' Guide, which, if followed will make good scholars of all who attend there. On the second page is a Railroad Map, engraved for this work and showing their routes to Edinboro. We like the fulness, clearness, and conciseness of the Catalogue, and the plans and methods of instruction described therein. Among the advantages of the School we notice and commend "a well supplied and well conducted Reading Room," an extensive set of Apparatus, and a recognition of the necessity of study. The School deserves and has received extensive patronage, and is destined to still greater success. It is highly recommended by all the School officers acquainted with it. All our readers should send for its catalogue.

"Oswald right onward, Into the Valley of Death, Rode the six hundred."

But larger, by hundreds multiplied into millions, than the doomed men who rode to swift destruction in Tenyson's poem, is the great avalanche of unhappy men who are rushing to untimely graves, followed by the specter of Dyspepsia. This is all wrong, and should cease. Plantation Bitters, the great Stomachic Pain Killer, cures Dyspepsia, Heartburn, Headache, Vertigo, Dizziness, and all symptoms of kindred character, as if by magic. For Longour, Lassitude, Great Weakness and Mental Depression, they have a most wonderful effect.

MAGNOLIA WATER.—A delightful toilet article, superior to Cologne and at half the price.

I. O. O. F.—At a regular meeting of Richhill Lodge, No. 571, I. O. O. F. it was resolved to celebrate the approaching 19th of Aug., it being the 5th anniversary of the opening of our Lodge. All sister lodges and all members in good standing in the county are respectfully invited to attend and participate with us on the occasion!

P. T. HENDERSON, J. H. DURBIN, R. L. NORRIS, Committee of Invitation.

INITIAL Paper put up in neat boxes of one quire each with envelopes to match at Day's Book Store.

LABR, Sperm, Neats-foot, Fish, Sweet and Castor oils for sale at G. W. Roberts Drug Store.

Read and Reflect. The following is an extract from the speech of F. P. Blair delivered in New York, on the evening of the 10th inst. We recommend its careful perusal to our soldier friends:

"What civilized people on the earth would refuse to associate with themselves in all the rights and honors and dignities of their country such men as Lee and Johnston? [Voice "none," "none."] What civilized country would fail to do honor to those who, fighting for an erroneous cause, yet distinguished themselves by gallantry never surpassed (applause) in that contest, for which they are sought to be disfranchised and exiled from their homes? In that contest they proved themselves to be our peers."

The Philadelphia Press says the Democrats have taken care to nominate a candidate for President who was in favor of the last rebellion against the Government, and a candidate for Vice President who has pledged himself in favor of the next rebellion against the Government.

When people are drowned, cannon are sometimes fired for the purpose of rising their bodies. The Democrats have been firing cannon over Seymour and Blair, but there is no hope of getting their heads above water. If they do, the heads will certainly be in hot water.

Special Notices. Guide to Happy Marriage.—Young Men's Guide to Happy Marriage and Conjugal Felicity. The humane views of benevolent Physiology, of the mind and of the body, of Youth and early Manhood, sent in sealed envelopes, free of charge, to any address. Sent by mail, Philadelphia, Pa.

Address to the Nervous and Debilitated, whose sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable: If you are suffering, or have suffered from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, listless, nervous, or do you feel a little extra exertion produces palpitation of the heart? Do you have spells of fainting, or do you sometimes feel a little sick, or do you feel a little tired, or do you feel a little out of order? Is your urine sometimes thick, milky, or does it rise to the top? Or is a sediment at the bottom after standing? Do you ever feel a little dizzy, or do you feel a little giddy, or do you feel a little unsteady on your feet? Do you ever feel a little nervous, or do you feel a little tremulous, or do you feel a little shaky, or do you feel a little unsteady on your feet? Do you ever feel a little nervous, or do you feel a little tremulous, or do you feel a little shaky, or do you feel a little unsteady on your feet?

Is your urine sometimes thick, milky, or does it rise to the top? Or is a sediment at the bottom after standing? Do you ever feel a little dizzy, or do you feel a little giddy, or do you feel a little unsteady on your feet? Do you ever feel a little nervous, or do you feel a little tremulous, or do you feel a little shaky, or do you feel a little unsteady on your feet?

Address to the Nervous and Debilitated, whose sufferings have been protracted from hidden causes, and whose cases require prompt treatment to render existence desirable: If you are suffering, or have suffered from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, listless, nervous, or do you feel a little extra exertion produces palpitation of the heart? Do you have spells of fainting, or do you sometimes feel a little sick, or do you feel a little tired, or do you feel a little out of order? Is your urine sometimes thick, milky, or does it rise to the top? Or is a sediment at the bottom after standing? Do you ever feel a little dizzy, or do you feel a little giddy, or do you feel a little unsteady on your feet? Do you ever feel a little nervous, or do you feel a little tremulous, or do you feel a little shaky, or do you feel a little unsteady on your feet?
