FEMALE SEMINARY. REV. JOHN LYON, PRINCIPAL. W. W. CAMPBELL, A. B., Associate Principal.

THE first session of the fourth school year of this Institution will open on the first Monday of

September, 1854.

The present school year opens auspiciously. The Principal looks forward with confidence, under God's favor, to its efficiency and success. With enlarged experience and invigorated health, with the Teacher of his choice. who has already commended himself to the attachment and confidence of this community, and with a corps of students already drilled and animated with some generous enthusiasm for knowledge, he hopes fully to sustain the high estimation in which his fellow-citizens have been pleased to regard this school of learning. The studies of the advanced class will cover a good part of the Junior and Senior Course in our best Colleges. No pains will be spared to develope the intellect and perfect the scholarship of the Juvenile Clusses. While memory is cultivated, and accuracy of recitation enforced, where set words are important, it is our guiding principle, that the great object of Education is to teach the young mind how to think, and to express in suitable lan-guage what it thinks. We ever keep in view that "the repetition, parrot-like, of the words of the school book, by the pupil, evinces neither his knowledge of the subject nor his power to enunciate it; and much less do the monosyllabic answers to a fixed set of questions."

If practice upon this principle gives the Teacher more labor, it will ensure him a higher reward and the Pupil a thousand-fold more

It will now take its place by the side of Grammar and Arithmatic as a daily recitation. We hope to wipe off that reproach for Deficiency here which lies so justly against most of the Schools and Academies of England and
