dominion far and wide. The name of a Greek on their own private account. Perhaps such even in that encapturing vision, when he saw, became synonymous with all that was great among men. Their descendants were painters I mention them merely to show that there is like a strong man after sleep, and shaking her and sculptors, who furnished models for every succeeding generation; poets, whose sublime strains have been feebly imitated ever since: philosophers and statesmen, whose words of wisdom will be heard with reverence to the end of time; warriors, whose deeds made Ther- has not reached us. But we feel it swelling be- senses open to the truth, would thwart such a mopylæ and Marathon the watchword of the free; and orators,

"Who wielded the fierce democratic at will, Shook the arsenal, and folimmed over Greece."

They were not unmindful of the benefactress, who had given the first impulse to their high career. They assigned her celestial pa-Temples were erected to honor her. They believed, that though her home had long been fixed among the stars, she still presided over their affairs and pleaded their cause in the Senate of the Gods. They painted her figure, as they imagined it, all radiant with supernatural beauty-her hand bearing the horn of plenty, and her head garlanded with ears of wheat. They worshipped her with all the fervor of idolitrous veneration, and for a long lapse of centuries they knew not, that the labors of the farm were blessed and rewarded by a greater deity than CERES. To this day we p her memory alive by calling the most useful of agricultural products after her name-the cereal grains.

Such, we may suppose, was the transition state of agriculture-the passage from ignorance, barbarism, sloth and hunger, to systematic industry, refinement and plenty. It was only a beginning. It has been advancing somewhat ever since, though the arts which sprang from it have outgrown their parent. Numberless instruments for the saving of labor and time have been invented. Preparing the ground sowing, harvesting and threshing may all be done now with machinery vastly improved. The character, nature and value of products. are better understood. New breeds of stock are introduced. Chemistry analyses every soil, and shows precisely what elements it needs to increase its fertility. Highly concentrated manures are imported from the most distant parts of the world, and others are manufactured at home, out of substances, which, once, were not only wasted, but suffered to reek their offensive odors on the atmosphere, and poison the health of the people.

In the days of Augustus, the fields of Italy, (then the centre of civilization,) were cultivated with an instrument resembling what we call a shovel plough-only it seems to have had no shovel. The immediate pred-patent plough, in use at the prese not much better. Most of you re "a low, long, rakish looking cra wooden mouldboard had to be clea ten rods, and its wrought iron share and coult taken to the blacksmith shop at least once a

The most important improvements yet made in agriculture have never been adopted here. A simple fact will show how much they have done for another country. Mr. Malthus, one of the profoundest thinkers of his day, calculated that the population of England would increase so rapidly, supposing its natural growth to be unchecked, that at the end of a certain time the soil would not yield a subsistance for the half of the people. For the other half starvation was the only prospect, unless a merciful Providence would kindly send war, pestilence and plague, to thin them out, and reduce their numbers to a level with the quantity of. food, which they could produce. This dismal theory was believed by the foremost men in the world; and it would have been true, if the land had not, afterwards, been cultivated with greater skill than before. But it turned out to be a total wistake. The population of England did increase as rapidly as Malthus predicted but the agricultural products of the country have increased in a ratio two hundred and fifty per cent, greater than the population. The people, who were to be starved long ago, o prematurely cut off by millions at a blow are living better than ever, with two and a hall times as much food for each individual, as they had when this theory was announced.

With the system of cultivation practised now bushel, at a less expense than it is here.

that has yet been done is as nothing compared than I intended. to what may yet come. Hitherto, Agriculture has been travelling over rough roads, in an old roads, telegraphs, or daguerreotypes. About and the sure defence of every nation. persons to get up showers, at an hour's notice, a power so boundless, or a people so blest, What are we coming to?

something to hope for in the future, not from invincible locks," or like an eagle "muing her of in your philosophy. These are but the at the full blaze of the mid-day beam: purging them. The wave which will bear us onward, heavenly radiance." neath us, and see its lofty crest in the distance. destiny, or refuse his aid to accomplish it is a

than we ever expected to be in this life. But how are Agricultural Societies to help this cause? I answer, much every way. No great change has ever been wrought in the habits of any people, without a united effort. Political principles, moral reforms, religion itself, are spread only by societies. As a bundle of sticks, tied together, is stronger than any separate stick, so is the united effort of an organized oody of men more powerful than any seperate efforts which can be made by the individual members. When you have a building to raise, you do not invite your neighbors to come at different times, and request each one to take a lift by himself. In that way they might break of our reporters to the scene of the accident. their backs without doing you any good. The building will never go up, unless they all lift dreds of people along the Harlem Railroad track together. If agriculture is to be elevated, it can only be done by a simultaneous lift. At the arme that is required.

THE BEDFORD CAZETTE.

Bedford, Dec. 3, 1854.

G. W. Bowman, Editor and Preprietor. JUDGE BLACK'S ADDRESS.

To the exclusion of much of our usual variety, we publish, this week, at length, the great agricultural address of Judge Black to which we alluded a week or two since. In doing so, we offer no apology for the space occupied, as we are satisfied it will be read with intense interest by all into whose hands it may fall. It is certainly the agricultural paper of the age, and is so considered by the ablest men and Journals in the country. We make no comment, on the Harlem Railroad, in the N. Y. Evening but simply advise every man, woman, and child, to read it, and pounder over the eloquent arguments it presents.

Lient. John Keeffe.

The numerous friends of this gentleman Bedford county will rejoice to learn that he is not only well, but that he is doing well, in the "golden country." By the Mariposa Chronicle, of September 29, 1854, we learn that he and a Mr. Kelly have been engaged for sometime in prospecting a quartz vein, from which they detached a piece of 70 pounds supposed to contain from \$300 to \$500. Their discovery is supposed to be a continuation of the celebrated Jenkin's vein on the Missouri Gulch. That Mr. Keeffe may realize a handsome fortune in this enterprize is our sincere wish. He is a worthy young gentleman, and greatly distinguished himself in the Mex ican War, notwithstanding he is a Catholic!

President's Message.

We expect to be able to lay before our rea lers, next week, the annual message of President PIERCE, which, we have no doubt, will be a Docu emanates.

Governor BIGLER, who has been serious! ill for a week or ten days past, is rapidly recovering, (as we learn by a letter from Harrisburg,) and will soon be able to attend to the duties of his office.

CO POOR HOUSE APPOINTMENTS .- Last Tuesday was the day fixed upon to make the appointments at the Poor House for the ensuing year, but meeting to make these appointments, and we pre-

months ago, that we come here not to hear arguments, but to see facts, and look at demonstrations.

I ought to remind you, that the State Society is not a mere voluntary association of private individuals, but a public institution established, protected and guarded by law. Some of you may not know, that the profits of its exhibitions have already made it rich. One of its officers and look window. He was fearful of an accident, and the state sociation, and the secret association, and in the profits of the secret oath and bis secret association, and the secret oath and bis secret association, and the the profits of the residence of Wm. P. Stewart, policeman of the present of the second ontoth. He is now a Judge of great experience, of habits of ceaseless industry, of high literary accomplishments, the scholarship and eminent attainments in the science of the law, a bright member of, possible to conceive of anything more vile, immoral, corrupt, infamous, than an association which thus obliges to the twint of heart arguments, but the residence of Wm. P. Stewart, policeman of the residence of Wm. P. Stewart, policeman of the residence of the section of the section on the list inst.

That Judge Lewis will fill his new station with a bility and fidelity, no one who knows him can doubt. He is now a Judge of great experience, of habits of ceaseless industry, of high literary accomplishments, the state society of the section should be a systematic hypocrite, and chear, secretly one a systematic hypocrite, and chear, secretly one set of the law, and the dishonor us a systematic hypocrite, and chear, secretly one set of the law, as yet emitting because of the law, as yet emitting because of the law, as yet emitting because of the law, as yet ematic hypocrite, and chear, secretly one Constitution, to the summit of his profession in the State. Nor is this all that he has achieved in this

THE PROTESTANT JESUITS.

The testimony in the case of Michael Reardon, rently tried before the supreme court of Massachu facts of a startling character relative to the secret

struction; that so long as you are connected with be a Roman Catholic; and that you will not, under any circumstances, expose the name of any member of this order, nor reveal the existence of such an organization. To all the foregoing you bind yourselves inder the no less penalty than that of being expelled from this order, and having your name posted and circulated throughout the different councils of the

We have heretofore remarked on the deplorable consequences which must ensue from a war of religions and races in our land, but we have not made any extended comments upon the organization and purposes of this secret association, because we had no reliable data upon which we could safely repose; their force and applicability upon the accuracy of the facts upon which we avowedly base them. If we ion as soon as any one will satisfy us of our error. We have no ends at which we aim in albiding to this

produced, by artificial means. It has been est science in making the most of their natural of shocks of earthquakes. The loss of life is that our country is the only one in which opinion is free, in which all men have assured political rights, It is the boast of the people of the United States, it is no uncommon thing, in a dry time, for ed strength! Milton himself never dreamed of Legislature of Massachusetts. Progressive age—

tation in all its forms, and to act, speak, and vote with perfect independence in all cases, within the limits of legal and moral obligation. Our institulimits of legal and moral obligation. Our institutions claim to be founded upon the spirit of universal
tolerance, especially in matters of religion. We hold
all public functionaries to a strict responsibility, not
only in regard to the law, but also in regard to public opinion. We pretend to judge the character of
candidates for office by full and fair considerations,
and by public discussion, in spectrand in the spress.
We have seenred to ourselves, by constitutional comwest, the right feedy to assemble for the, purpose of

ted States, a political party whose only mode of action seems to consist of something akin to midnight the impetosity which is natural to them, and a hocospiracy, the conspirators being handed together by oaths binding them to the performance of two things the most degrading to intelligent freemen which it is possible to a constitution of the performance of two things the most degrading to intelligent freemen which it is possible to a constitution of them and a second constitution of the constitu which it is possible to conceive, viz: first, that they will act as the blind, senseless tools of unknown and irresponsible superiors, and, upon the mere dictation of such masters, think, act, and vote, utterly without any conscientious determination of their own judgments, or any manly exercise of their own wills; and, secondly, that for the purpose of thus giving effect to the dictatorship of such masters, they will ve and act in the continued practice of duplicity nd bad faith towards all such of their fellow-citizens as do not choose to enter into the disgraceful conas do hat choose to the same time, the were engaged.

On both sides the losses have been great; ours has

of the Gospel even should, by any possible obliquity of mind, become reconciled to what is, in effect, a conspiracy also of perpetual hypocrisy; for it must now be universally admitted, in the absence of testimony to the contrary, that the members of this secret association are bound together by a solemn oath to conceal, not only what they do in their midnight cabals, but even the fact of their being members of the association. A minister of the Gospel solemily swears that he will be on the subject of his membership—lie deliberately—lie constantly, lie for the set and sole purpose of cheating and imposing upon his fellow-clergymen, his fellow-men—nay the very parishioners of his charge, to whom he is under the holiest obligations to be a preacher and a model of truth and sincerity, in the face of man and of God. Tuesday, 10th inst., has been fixed upon for another meeting to make these appointments, and we presume the applicants will be present, with their credentials.

Chief Justice Ellis Lewis.

Gov. Bigler has notified the Hon. Ellis Lewis that he has become Chief Justice of the State, in the room of Hon. J. S. Black, whose term as Chief Justice of the State, in the room of Hon. J. S. Black, whose term as Chief Justice of the State, in the acceptance of the State, in the constant under the properties of the State, in the room of Hon. J. S. Black, whose term as Chief Justice of the State, in the following summary of a Russian official desmethers in the constant violation of all the obligations of a freeman, and a Christian? pact, the right freely to assemble for the purpose of discussing public men and public measures. We have hitherto assumed at all times that a full and free discussion of men and of measures is of the very estigated had the princes witnessed our success of the discussion of men and of measures is of the very essence of republican liberty. And we have never day before, and the garrison of the town testified its ceased to reproach the monarchical and aristociatic impatience to welcome their Righmesses by a new despotisms of other countries with the fact that, exploit. In the afternoon, a column, consisting of owing to the absence of public and free discussion sixteen battalions marched resolutely on the right owing to the absence of public and free discussion among them, secret conspiracy, midnight cabal, and other clandestine contrivances, grow up in such countries as the natural result of the tyranny of irresponsible power in the hands of kings and of emperors.

symptoms and tree discussion satteness, and to hand, our battalions returns ed to the town without being disqueted. Almost at the same moment, three battalions executed a rapid movement of attack against the siege-works of the In the face of these facts, it is certainly one of the most extraordinary phenomena of modern times, that there should have spring into existence, in the United States of the men who were serving them.

The French hastened up and pursued our men with place. They were there received by a well directed fire, which killed a great number of them; and a sortie executed with a rare vigor, forced them to r to their lines. During this last movement, and a little before three in the afternoon, Gen. Liprandi, with a part of the forces under his command, attacked the English line. A desperate engagement ensu-ed. I ordered forward from Teborgoun the troops that could be collected in haste, to support them. Our dragoons executed two brilliant charges. The enemy defended themselves most stubbornly, and the approach of night alone put an end to the conflict. In our share of the day's proceedings, 22,000 men

On both sides the losses have been great; ours has been about 4000 men, and that of the enemy at least vellous is, that the good men, as they profess to be—that ministers of the Gospel even should, by any possible obliquity.

"Despatches from Balaklava to the 11th inst, have been received this evening, according to which another great battle has been fought, in which the Rusians lost nine thousand men. The loss of the albest was also great, but they remained masters of the field."

Three English Generals Killed.

We regret to say that intelligence has been received at the War Department of the deaths in the action of the 5th of November, of the following distinguished officers : Lieutenant General Sir George Catheart, adier General Goldie. The sad intelligence reached his Grace, the Duke of New Castle, by telegraph, in cypher, on Thursday, but was withheld from the public until yesterday, in order to afford his Grace the necessary time for communicating the painful in telligence to the widows and relatives of the deceas ed. Accounts received to-day report the deaths of Major Dalton and Major Powell, of the 47th Reg-ment; the latter was shot through the body by a Russian rifleman. General Sir de Lacy was on board the Simoon, laid up with diarrhoe, and the effects of the fall from his horse. A number of officers, woun-ded in the affair of the 5th, had arrived at Constanti-

Progress of the Siege.

Our fire, as well as that of the Russians, was weak unable to keep the sea.'

The Times of Friday published the following des patch from its correspondent at Constantinople, dated November 6: "No news had arrived from the Crimea up to the evening of the 4th. The firing was slack on both sides. The assault was in preparation, and scaling ladders had been ordered up-truth as to reported loss of the Egyptian vessel

to see their countrymen thus adopting the assassin carbonari devices of renegade Italians, and the insane intolerance of a crazy Scotchman, and call that forsooth, Americanism.
