CAN BE EFFECTUALLY CURED BY

DR. HOOPLAND'S

CELEBRATED GERMAN BITTERS,

Prepared by

DR. C. M. JACKSON,

No. 120 Arch Street, Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are, without safe, certain and pleasant.

READ AND BE CONVINCED.

J. D. SPANIX, Laceyville, Pa. April 6, 1854, says: "I can get you some good certificates for your German Bitters in this vicinity if you wish them. A lady purchasing some of it this week, says that it is by far the best medicine she ever knew, having done her and her daughter much good, &c."

S. B. LAWSON, Bedford's Store, Somerset Co., Pa., August 15, 1853, says: "I am much attached to your German Bitters, having used two bottles of it, which I procured from S. Kurtz, your agent at Somerset, and found great relief from in disease of the Liver. I find it has great effect upon my lungs, strengthening and invigorating them, which, as I am a public speaker, is a great help to me."

Dr. GUZZ, Newton Hamilton, Pa., May, 1851, said: "I have used myself half a dozen bottles of your German Bitters for Liver complaint and diseases of a nervous character, resulting from the abuse of mercury. I was poisoned and afflicted with spasms from the use of this latter article. The German Bitters is the first article from which I obtained any relief. I have also given the article to many dyspeptics, with the most salutary result. I think many more bottles will cure me."

J. C. YOUNG, Esq., of Dauphin, Pa., writes May 5, 1851: "I was afflicted with General Debility, Intestinal weakness and Costiveness, for which I used many different remedies without relief. I at last used your Hoopland's German Bitters. I took a few bottles according to directions, and was completely cured. I have not been so healthy for ten years as I have been since I took your Bitters, which is about one year ago."

The Bitters are ENTIRELY VEGETABLE, always strengthening the system and never prostrating it.

Sold by dealers in medicine and storekeepers everywhere. And by

Truth is Mighty!

Important news for the Invalids of Albany!

FULVERNARCHE'S

HYDRO-ELECTRIC VOLTAIC CHAINS,

A New, Novel, and strictly Scientific Mode of applying Electro-Magnetism for the Instant Relief and Permanent Cure of all NERVOUS DISEASES.

Is for the first time introduced to the people of Albany and vicinity. We know that there is too much good sense among the inhabitants of this place to desire a long, unmeaning, extravagant advertisement; hence we shall simply give you a history of the Chains, and the success they have had in curing with in the last year, NERVOUS DISEASES.

Fulvernarche's Electric Chains were first used in France, three years since, where the success that attended their use, soon attracted the attention of the first medical men in Paris, who took pains to give them a still further trial, and recommended their adoption in the different Medical Colleges of that Kingdom. Within the last two years they have been introduced in Germany, Austria, Prussia, Belgium and England, where they soon became the most popular article for the INSTANT RELIEF AND PERMANENT CURE of that class of diseases called NERVOUS.

One year since they were introduced into the United States, and can now be found in all the principal cities in the Union. It is necessary to speak at length of their great success and unparalleled sale, wherever they have been introduced. It is sufficient to state that they are highly recommended by Professor Mox, Van Eaton, Post and Carnochan, of New York; and also in daily use in every Hospital in that city. \$4,000 dollars will be given to any person who will produce so many well authenticated certificates of cure, from intelligent patients and scientific physicians, of the following diseases, as may be found in a pamphlet of 36 pages, to be had (gratis) of the only agents in Albany, DEXTER & SELLIGER. Painful and Swelled Joints, Palpitation of the Heart, Rheumatism, Neuralgia of the Face, Nervous Headache, Pains in the Back, Deafness, Blindness, Pains of the Liver, Nervous Cough, Tooth Ache, Prolapsus Uteri.

It is not strange that the application of Electro-Magnetism will instantly relieve pain, wherever located, more quickly than opium or any of its compounds—for it is based upon the true theory of the origin of pain—a late discovery, and which the Chains supply, by being applied over the parts affected—after first being moistened with common vinegar, which is the only preparation necessary.

The common sense of the people all over the country is awakening, and they have concluded that they will no longer make the false hopes of their stomachs, or be guilty of swallowing the miserable, disgusting nostrums that are thrust before the public.

RHEUMATISM, that common disease of this climate, can be almost instantly relieved of its pain—add a permanent cure produced by simply applying a chain of 18 links for a few days, a few hours each day.

PROLAPSUS UTERI. More than one hundred cases of this disease have been cured within the last year, that had baffled every other mode of treatment, by wearing a 30 link chain for a few weeks, by attaching one end upon the spine and the other on the abdomen. After a simple application the most distressing symptoms disappear, and the patient soon gains flesh and strength. I do not know of one single instance that has not been greatly benefited, if not permanently cured.

OUR WORD OF CAUTION TO THE LADIES.—Ladies who are ENDEAVORING to wear their thin, or frequent use of CORSETS is often produced.

FEMALE SEMINARY.

REV. JOHN LYON, PRINCIPAL.

W. W. CAMPBELL, A. B., Associate Principal.

The first session of the fourth school year of this Institution will open on the first Monday of September, 1854.

The present school year opens auspiciously. The Principal looks forward with confidence, under God's favor, to its efficiency and success. With enlarged experience and invigorated health, with the Teacher's high choice, who has already commended himself to the attachment and confidence of this community, and with a corps of students already drilled and animated with some generous enthusiasm for knowledge, he hopes fully to sustain the high estimation in which his fellow-citizens have been pleased to regard this school of learning. The studies of the advanced class will cover a good part of the Junior and Senior Course in our best Colleges. No pains will be spared to develop the intellect and perfect the scholarship of the Juvenile Classes. While memory is cultivated, and accuracy of recitation enforced, where set words are important, it is our guiding principle, that the great object of Education is to teach the young mind how to think, and to express in suitable language what it thinks. We ever keep in view that "the repetition, parrot-like, of the words of the school book, by the pupil, evinces neither his knowledge of the subject nor his power to enunciate it; and much less do the monosyllabic answers to a fixed set of questions."

If practice upon this principle gives the Teacher more labor, it will ensure him a higher reward and the Pupil a thousand-fold more benefit.

During the past year an Astronomical Apparatus has been procured, at a cost of \$60. Separate entrances and separate seats are appropriated to the Male and Female Departments. It has long been a Desideratum with the Principal to introduce a thorough and scientific study of vocal music as a part of the Academic Course. It will now take its place by the side of Grammar and Arithmetic as a daily recitation. We hope to wipe off that reproach for D. deficiency here which lies so justly against most of the Schools and Academies of England and America.

No Pupil received for less than 1 quarter. Terms per quarter, as usual, to wit: CLASSICS, \$8 25; HIGHER ENGLISH, 5 00; MIDDLE " 4 50; ELEMENTARY " 4 00. Bedford, August 19, 1853.
