

DEMOCRATIC COUNTY MEETING.

The Democracy of BEDFORD County will hold a

Grand Mass Meeting

in the Court-House in the Borough of Bedford on MONDAY EVENING of the approaching County Court for the purpose of nominating a Ticket to be supported at the next election, and to adopt such measures as may be deemed necessary to secure its triumphant success at the Polls.

RELIGIOUS NOTICE.—REV. JOHN CHAMBERS will preach in the Presbyterian Church of Bedford on next Sabbath morning at 10 o'clock—and in the evening at early candle-light.

A Session of the Supreme Court will commence in Bedford on Monday the 13th inst. when all the Judges are expected to be present.

The First Page.

Our first page will be found highly interesting, containing, as it does, the Speech of Hon. JAMES B. CLAY, to which we alluded last week—an article from the Presbyterian Critic which must carry a conviction of its truth to the mind of every man that reads it—a Speech from the old Patriot, Gen. CASS—

Capt. JOHN MCANLES, of Philadelphia, has been spending a few days at the Bedford Springs, and no man visits this place who meets with a more cordial reception. He is one of the most enterprising members of the Broad Top Rail Road Company, and to his unremitting and valuable efforts the people of Bedford county are greatly indebted for the rapid progress which has been made in the erection of a work which will soon open up one of the most magnificent coal-fields in the United States.

SNAKE FASCINATION.

We publish to-day an account of a little girl, represented as beautiful and interesting, who is so completely under the fascination of a reptile bated by man and cursed of God that her very existence seems to be centred in its poisonous and clammy folds! When she sleeps, she coils herself up like a snake—and she and the snake are now on exhibition, a picture truly horrible and disgusting.

BEDFORD COUNTY BIBLE SOCIETY.

A meeting of the Bedford County Bible Society was held in the Lutheran Church of Bedford on last Monday evening—John Mover, Esq., President—and the Rev. F. BENDER, Vice President. Rev. Mr. TORRENCE, the General Agent of the Society, was present, and in a beautiful and impressive speech, communicated much valuable information to those present.

Gen. John W. Geary.

Our old and valued friend, Gen. J. W. Geary, is among the visitors at the Bedford Springs, looking well as usual. He is a true specimen of a finished gentleman, and a reliable Democrat. As the commander of one of the Pennsylvania Regiments in Mexico, and as Postmaster, Mayor, and Chief Judge of the several cities of San Francisco, he has placed upon record a public character which will favorably compare with that of any other man of his years in the country.

THE JUG LAW.

We do not see how it is possible for a Temperance man to defend the anti-Licence Jug Law, unless, indeed, his motive be to furnish every lover of Liquor with an earthen Jug, at a good profit, to carry his Parker from the tavern to his home! It was once said of His Excellency, Joseph Ritner, that after eating the best part of a roast pig for dinner, and being inquired of by the servant what else he would be helped to, replied that he believed he would take another little Hog—and, when the Licences are taken from the taverns on the first day of October next, those who are in the habit of drinking ardent spirits, will be heard to call for another little Jug instead of a gill, and this system Senator Jordan and his know-nothing brethren at Harrisburg have forced upon the people as a Panacea for intemperance.

SPURNING THEIR SUPPORT.—Messrs. Isaac Mitchell, Dem., John H. Wells, Whig, and Job Throckmorton, Dem., who have been nominated, by the Know-Nothings of Greene County, for the respective offices of Sheriff, District Attorney, and Auditor, have come out and most emphatically declined the nomination, repudiating all contact or association with such a crew. Mr. Throckmorton, in his card, says: "I cannot consent that my name shall be used for an experiment, at my expense of character, by any rotten and disconcerted party."

WHAT DOES THIS MEAN?

Until within a few days past, the Philadelphia News has been the most wild, rabid, and reckless Know Nothing paper in the State—its sun rose and set in its admiration of the Order—it could see no end to its existence and its power—it applauded its every act, even the burning of the ballot boxes in Cincinnati—it rejoiced over the spread of bigotry and intolerance, and the desertion of the Constitution—it acknowledged itself the mere retailer of the midnight plottings of "Sam"—but now behold the change that has come over the spirit of its dream.

In this same paper of last Thursday, we find an editorial from which we make the following extraordinary extract, which cannot fail to excite especial attention. The News begins to see day light—in other words the breaking up of Lodges all over the country, and the renunciations daily taking place seems to have awakened the editor to a full knowledge of the hopeless degradation into which the late Whig party has sunk, as an organization, by uniting itself, through the agency of its newspapers, to the most corrupt and demoralizing faction that has ever disgraced the earth—in fact embodying all the poison of all the factions that have existed since the formation of our glorious and beautiful form of Government.

entered on Monday night by a burglar, who, in the course of his operations, awoke two young men who were sleeping in the store—one of whom took a rifle and ordered the burglar, who had just got outside the door, to stop, but paying no attention to the request, and persevering in his attempt to escape, he was shot in the neck.

Upon an examination, the wounded man was discovered to be a carpenter who has heretofore been considered a respectable citizen. It is now supposed that he is the person who has committed several of the recent burglaries which have taken place at Erie. It is impossible for him to survive.

RENOUNCING KNOW-NOTHINGISM.

READING, June 23d, 1855.

BENJAMIN H. BREWSTER, Esq.,

Respected Sir:—The American Party of Berks County intend celebrating the Seventy-Eighth Anniversary of American Independence, on "the City Island," and I have been authorized by the Committee of Arrangements to extend an invitation to you, and others, to address them on that day.

With great respect, I remain yours, &c., CHARLES K. ROBESON, Chairman of the Committee of Arrangements.

SATURDAY EVENING, June 23d, 1855. 4 York Buildings, Walnut St. Phila.

My Dear Sir:—I have received your letter today. I cannot accept of your invitation—I desire to take no active part in politics. Besides, I feel obliged to say, that I do not subscribe to the doctrines of the American party, as they have been pronounced by its Convention. As I have before this said, it will be well to correct the abuses of the Naturalization Laws, secure their administration, and amend their defects—further than this I am not prepared to go.

To regulate this right, would be proper—to abridge and wholly refuse it, would be wrong. To crown down and punish demagogues, who would combine bodies of naturalized voters to corrupt and demoralize the Democratic party, and abuse the Democratic principle of suffrage, would be right and just.

Several arrests have been made in Brooklyn, and a number of seizures in various towns in the interior. The law, however, is everywhere found to be valueless, and its chief tendency to give business to the Courts. The Herald, of Thursday, says: "Our liquor law is an abortion—a bungling—a nuisance—a perfectly dead letter. Except in the occasional arrest of a man overburdened with liquor, we are not aware that it is in the slightest degree respected from Long Island to Lake Erie."

For the Gazette.

The Cemetery, No. 2.

Mr. Editor:—In my communication of last week, I urged the propriety and necessity of a new burial ground, from the fact, that our present places of interment are in such a neglected and dilapidated condition, and so exposed to depredations of every kind, that there is little use in an attempt on the part of individual citizens, to bestow that care on the resting place of the departed, which decency requires—those tributes of affectionate remembrance, alike beautiful in themselves, and consoling and purifying to the soul of sorrow.

Attempt to Blow up a House in Rhode Island.

We published a telegraphic account some days ago, of this diabolical attempt. The following is from the Providence Journal of the 13th:—

One of the most infamous attempts to destroy life and property ever known in this region, was made on Thursday night, happily without fatal result. The particulars, as far as they have been communicated to us, are briefly as follows:—At about 12 o'clock on the night of the 12th instant, an explosion of a large quantity of gun powder took place in the house of John Tucker, Esq., formerly a deputy Sheriff and member of the General Assembly from North Providence.

His escape from immediate death is short of miraculous. By the investigation made on Friday morning, it appears that a keg of gun powder was placed in his chamber, on the first floor of the house, directly under the head of his bed. An auger hole had been bored through the floor into the cellar window, where it was easily fired from the street, running directly by the west side of the house.

Every partition on the lower floor of the house was thrown down, a considerable portion of the house was thrown some distance across the street, all the windows in the lower story were broken, and most of the sash thrown out of the casings, and the east and south ends of the house were wrenched in such a manner that it is surprising the house should have withstood so violent a shock.

A BOLD FALSEHOOD.—One of the resolutions of the Know-Nothing convention at Philadelphia opens as follows:—"Resolved, That the American party, having arisen upon the ruins and in spite of the opposition of the whig and democratic parties," &c.

A BURGALAR SHOT.—BUFFALO, JULY 18.—We learn from Erie that a store in that place was entered on Monday night by a burglar, who, in the course of his operations, awoke two young men who were sleeping in the store.

DEED: At Blood-River, on the 9th inst., Mrs. ELIZA, wife of Mr. Samuel Bender, of that place, aged 23 years, 1 month, and 15 days, died at 10 o'clock, P. M., in Bedford, on last Thursday evening. Mary, daughter of Jackson and Catherine Bayler, aged 4 years, 8 months and nine days.

alarm, which they supposed arose from the house being on fire.

Nearly every article of furniture in the house was destroyed. One visitor states that the only object he saw which appeared uninjured was an old-fashioned clock, which had stopped at the moment of the explosion. The house was of wood, substantially built, handsomely finished, and nearly new. It was two stories high, with a basement, and an all on the south.

A Horrible Murder in Algeria. Just before daylight on the morning of the 4th a horrible murder was committed in Algeria, near the Third District Ferry Landing. An old man, named Francis Berard, aged 45 years, a native of Switzerland, lived in a small house with his wife; in one end of the establishment he kept a small grocery. Just before daylight the house was broken into by robbers, the armor broken open, and the old man, who was lying in bed with his wife, was strangled to death. His neck was completely crushed and his skull was fractured by a blow with a hammer.

The ADVENTURES OF A \$1000 BILL.—A poor colored woman called, last Sunday, on Capt. Moynan and stated that she had been robbed of a thousand dollar bank bill by a little slave boy of hers. She stated that she resided in Custom-house street, between Royal and Bourbon, and that the slave boy had stolen the bill and taken it out into the street, where he showed it to a young white lad and then went into a house kept by a negro woman. The white lad, to whom he showed the bill, came immediately and told her what he had seen, and on looking for the bill she discovered that it had been taken. She at once searched the boy, he denied all knowledge of it at first, but finally said he had given a bill to this colored woman. The woman who had lost the money at once repaired to the house of the other, and inquired of it; the latter, with the greatest good faith, handed her a five dollar bill, saying she had taken it from the boy and intended returning it.

The Chief, after listening to her story, at once dispatched on his special, officer Horne, in search of the fugitive bill. Horne went to the house of the suspected colored woman, and found a white man in company with her, who showed some disposition to turn the officer out of the house, and was highly indignant that he should have had the unblushing impudence to come to the house of a respectable colored woman, kept by a white gentleman? to search for stolen money.
