The Chambersburg Whig.

During the late campaign, this paper took the most strong and unequivocal ground against know-nothingism, even denouncing them more harshly than most of the Democratic press. In view of this fact, we felt pleasure in according to Col M'CLURE, (the editor,) a great degree of disinterested patriotism, and took frequent occasion to applaud his course as manly, independent, and honest. But we find, with regret, that we entirely misconstrued the real character of the man. An article in his paper of Oct. 31, shows the cloven foot too plainly to be misunderstood even by the "way faring man."-He now deprecates the idea of the old line Whig press lampooning the know-nothings, of which he has been chief, and calls for a brotherly union between them and all the other elements that stand opposed to the Democracy! The Colonel himself goes for the Colored Folks. and proclaims his intention to unfurl the incendiary Flag of ABOLITIONISM, which is the twin-brother to Know-Nothingism, and equally as dangerous to the true interests of the country. Whenever our opponents unfurl this BLACK FLAG, promulgating a doctrine intended, eventually, to place the NEGRO upon full equality with the white man-a doctrine calculated to desolate the entire South, and crimson its soil with the blood of as chivalrous a set of people as ever inhabited the earth-we a set of people as ever inhabited the earth-we say, whenever the motly crew of Know-Noth- on, in which he had incarcerated himself in or- in adjusting her bair she dropped one of her ings and Republicans unite upon this infamous platform, the yeomanry of Pennsylvania are ready to meet and overwhelm them by such a majority as was never before given in the glorious old Keystone State. He who attempts to unite the two races can be considered in no other light than a traitor to his country and the Constitution under which we live, and abolitionism, (alias "Republicanism,") points unmistakeably to this state of affairs, let its advocates say what they may ! But to come back to our friend Col. M'Clure. both law and morals, was started in Chambersburg. It is important, therefore, always to bear in mind, that whatever tends substantially to benefit the common people will be generally viewed with hostility by the pseudo aristocracy of the country. Hence, genuine Christianity and Democracy both originate with, and bave mainly been supported by, men of humble origin, circumstances, and situations, whom those puffed up with undue wealth, assumed learning, power, rank, and authority, generally profess to despise for their low birth, poverty and ignorance.

Anything which has a tendency to promote genuine civilization, Christianity, and Democracy, is most in accordance with the interests and feelings of the mass of the people.
