THE RESULT IN BEDFORD COUNTY.

We stated last week that the Democrats had a clear majority in the county of Bedford of at least thirty votes. We made this statement from the best ation that could be obtained from the Returns as filed in the office of Prothonotary of the County. We now proceed to prove the assertion by the facts and figures. The Know Nothings claim that they carried the County by a majority of 127. Their leaders boast of this, and proclaim it strenuously, in order, as they think, to influence the public and pre-vent the true result from being believed. They have made a calculation upon which they base their assertions. It is as follo

Majority We say here, without the fear of successful con-tradiction, that this calculation is unfair, partial, and untrue—that it does not reflect the true political sentiment as exhibited by the returns. They profess to regard the vote for Judge as the test vote. In order to deceive the public, they have given the entire rote of their party for Judge as the majority in several in-stances. We say, unbesitatingly, that there are errors enough in their boasting and bragging in three districts alone to change the majority which they State in the following opinion: cistricts alone to change the majority which they claim in the County into an actual minority. In East Providence they claim 105 majority. For Judge in that district one candidate received 68 votes and the other 37 votes. These they add together Dear Sir: I have received Mr.
