Arrived there in front of the stand erected for the oc-casion, we found it buried in shrubbery, wreaths and festoons—all well gotten up. Mr. Gibson, pastor of the church, in his happy manner took the stand, and opened the exercises with an appropriate prayer. Mr. Saml. Shuck, Superintendent, was also there. We suspected his brother, Wm. Shuck, very strongly for being out there before, judging from the taste displayed in the arrangement on the ground. We wondered what the large horses were standing hitched at the fence for, covered with heavy harness; but in looking round found several barrels of water, and a good deal more than five loaves and two fishes there in baskets. The dialogue between masters without affording me any relief, ceasen and Blymire, was conducted with such ease and natural outburst of expression as made you think they were really in earnest. The star speech of John Shuck took us down. His voice, his gestmer test do use your valuable medicine and clear articulation, together with a peculiar flash of his eye and a little knitting of the brow occasionally gave evidence of good ground there for cultivation. James Shuck made an admirable speech.

THE NEW YORK HERALD, of the 3d instant, enters warmly into a discussion of the Medical practice of Dr. Robert Hunter, of that city. The editor of the Herald stated on a former occasion that he was himself a patient of Dr. Hunter, and had derived great relief from his treatment. He says:—No man, we will venture to say, in the whole annuls of the profession, has ever introduced a more important innovation on the old system of practice, or gained in a short space of time more converts to his opinions.—

Amongst these he has to reckon some of the faculty itself, forced to conviction by the proofs that daily fall under their observation. But the most incontrovertible evidence of the benefits conferred by Dr.
