RURNING OF A SHIP.

The following details of a horrible case of pitacy and burning of a ship at Macoa, have been received at Liverpool:-

The Dutch ship Banca, Capt. Heymans, 700 tons burthen, with between 300 and 400 emigrants, (coolies) for Havana, put back to Macoa, about a month since, (the dispatch is dated Hong Kong, August 10)—with her water casks leaking and cargo shifted, having encountered very boisterous weather, and on reaching the other roads brought up to an anchor. There she remained repairing, the officers exercising strict vigilance in preventing the coolies going ashore, for fear they should make their escape. for three weeks, however discontent may have prevailed, no fears of an outbreak would seem to have been entertained, until a Chinese doctor warned the Captain that mischief was brewing. In preparing for such a contingency as the raising of the coolies, the small arms were placed on the poop, and two guns were loaded with grape and pointed forward.

About nine o'clock on the night of the 8th. the disturbance commenced, and the crew took refuge on the poop. The captain first fired a shot or two overhead, but as that had no effect and the coolies advanced towards them, yelling frightfully, armed with belaying pins, bricks forn from the cooking places, &c., the captain gave order to his men to fire, and immediately a volley was poured into the infuriated mass from the two guns and also from the small arms. This had the effect of checking and putting down the riot, and the coolies were driven below, but they sought revenge by setting fire to doubt murdered all the officers of the ship .- edy. None of them, nor the captain, were afterwards seen. The ship was soon in a blaze, fore and afi. In about an hour the mainmast fell with a crash, then the fore and mizen, and about midnight the magazine blew up with a tremendous explosion. The ship was instantly hurled to fragments, and a vast number of poor creatures. who, clinging on the chains, perished with her. Of the number who were on board, including crew and passengers, about 500, only 150 escaped with their lives; the remainder were Correspondence of the St. Louis Republican.

INTERESTING FROM NEW MEXICO.

INDEPENDENCE, Oct. 23, 1856. The Santa Fe mail reached here to-day. By it we have little news of importance. Business of every kind is reported to be dull, and trade, unless the mines yield more readily than usual, or the gold hunting expeditions turn out more laverably, must continue to offer little inducements to adventurers. The quartz crushing apparatus, introduced into the Territory recently, have not yet fulfilled the sanguine expectaions of the proprietors, and unless their erection is completed soon, many will begin to lose faith in the firmness of the companies. It is certainly true that the refuse material

at the "placers," if properly used, will yield very abundantly of the precious metal, and we will await with anxiety to hear of the results of the different enterprising companies who have the different enterprising companies who have already their apparatus in the territory. The Ialian relation with the department has not much changed since I last wrote you. The majority of the tribes are comparatively quiet, yet, true to their natures, they cannot let an opportunity escape for committing theft. Those most noted for this are the Mescaleres, and it is said their depredations arise from the fact that the will be distinct, so soon as the necessary arrangements can be effected. In this School Students will be prepared for the higher classes of any College, or to enter at once upon the active duties of the series of a liberal education, English and Classical, will be taught. It is designed to establish in Bedford a PERMANENT Institution of a high ormal will be distinct, so soon as the necessary arrangements can be effected. In this School Students will be prepared for the higher classes of any College, or to enter at once upon the active duties of the public that he will open in Bedford, on the first Monday of November next, a High School, in which all the branches of a liberal education, English and Classical, will be taught. It is designed to establish in Bedford a PERMANENT Institution of a high ormal proportion of the public that he will open in Bedford, on the first Monday of November next, a High School, in which all the branches of a liberal education, English and Classical, will be taught. It is designed to establish in Bedford a PERMANENT Institution of a high or an appropriation of the proportion the Senate failed to ratify the treaty made with life.

The Nowahs tried their hands recently in the same way, and were proceeding still further to deeds of daring in the Nebajo country, but were turned back.

We consider these as the country ters, and indispensable to sound learning.

The Physical, Moral, and Social Education of the Pupils will receive that attention which their impor-

story. Nothing has, as yet, been done on the studies, and for each there will be extra charges. penitentiary -- a building, judging from the necessities of the country, which needed erection previous to any other. The summer and fall rains have been very abundant, and many bouses have suffered in consequence.

On the first Monday in September the elections were held, and the Democrats have a maority in both houses. The mail party had a pleasant trip out and in, barring one or two cold rains. In the outward bound train Mr. Porthoff, a passenger, accidentally shot himself in the band. Quite a number of Cheyenes and other Indians were seen on the route, but offered no violence.

From a Cape of Good Hope paper.

Frightful Death by a Lion.

Moor RIVER DORP, June 23. On Friday morning, the 13th of June, several wagons, forming part of the second division of the command, left Mooi River Dorp for the lager at Marico. They rode the first evening is far as Riet Spruit, a noted place for lions .-Mr. Phillip Van Coller and his brother, wishing o proceed, inspanned their wagons about midhight, although they were strongly advised by eir companions not to ride before morning .-They had searcely ridden an hour when the

Oxen were suddenly frightened. Phillip Van Coller jumped off his wagon and endeavored to turn them, but not succeeding in doing so, sprang upon the wagon trap, from which he must have been immediately dragged by a large lion with such force as to break one of the traprims. He was heard to cry out twice for help, but in the confusion of the moment was not missed, his brother Adolphe being busy at the time on horseback, endeavoring o stop the oxen, which were going at a fearful rate through the field. With much difficulty he succeeded in doing so, and then returned to look for his missing brother, whose body he found about daybreak, and the lion crouching about twelve yards from it. With a feeling of desperation he leveled his gon and fired at the animal. The aim was good, and, as the ball passed right through its head, it fell down on the spot. On coming nearer to his brother's body the poor man was sadly shocked at its mulong distance, and then devoured the greater order of the Captain. portion. The remains were hastily conveyed to town, and upwards of eighty persons attended

the funeral. Poor Phillip Van Coller leaves a widow and several children to deplore their loss, and his melaneholy end.

to the oxen becoming frightened, the lion first cing all the varieties usually found in Store. attacked, without any provocation, Adolphe Van Coller and three other men who were ri- ever. And we respectfully invite our friends ding on horseback some distance in front of the and customers to call and examine our stock. wagon. Having unfortunately no guns with them, they jumped off their horses, and stood between them and the lion. The lion, however, appeared more anxious to attack them than their horses; on which they shouted and threw their hats at him, and afterwards fired the grass, when he left them and went to the wagon .-The surrounding country being all occupied, sawed off the horns-the other a few white the lions appear to have concentrated themselves at this spot, where they are extremely
