

From the Pittsburg Christian Advocate. HYMN TO THE GREATNESS OF GOD.

BY W. WHITTON REDDICK, A. M., Principal of Sandusky St. High School, Allegheny City.

> "The spacious firmament on high With all the blue, etherial sky,
> And spangled heavens, a shining frame
> Their great original proclaim." [Addison.

The Lord our God is great and strong. His power demands our loftiest song, For by that power all things were made, Are still upheld and ruled and swayed.

To all that live. He life hath given. To all on earth, in hell, in heaven: All things exist in Him whose throne, Nor works, nor source, nor years are known.

He moves the spheres with skill divine, That far through trembling ether shine, And suns and moons and worlds, whose stores Fill up the boundless universe.

And mid the glittering planets harled It out upon the ceaseless round, And gave its days and years their bound.

When meteors flash, or thunders peal, When tempests how and oceans reel. Or cold and hail sweep from the north, His hand controls or sends them forth.

When dazzling day fades down in night, The moon walks forth in azure bright, And with her countless, starry throng Declares His glory in their song.

When clouds enshroud the midnight sky, Like folds of drapery hing on high, And sounding storms amongst them sweep, Lond echoing through the airy deep.

Through every fear, in fiercest storm We look to heaven, and see a form And hear the voice, and trust the power Of God, our refuge in that hour.

If friends forsake, or fortune fails, Or want or pestilence assails, We look to heaven, and trusting still That power and goodness, bide His will.

And e'en at last when death appears With all the pains that mortal fears, We still shall trust His mighty arm To shield us then from every harm.

Once o'er flood-with harp in hand We'll join that radient spirit band That strike their harps on heaven's bright

And hymn his praise forever more. PITTSBURG, Oct., 1856.

Mr. Epitor:-The following I find in a communication published in the Ledger a few days ago, and in which I think is embodied the true version, the Constitution and laws of the Union the subject of slavery and its extension into the Territories, which I wish you to give that high opinion of the enjoyment of that place a place in your paper, and which is as follows:

That slavery cannot exist in any territory of the United States until it is made there by a statute or State law; hence, neither Congress or any other power can put it there until such territory shall be waste words, for of course it cannot probabil what cannot exist there until the territory is entirely beyond its control by being made a State. The territo me to be the only construction the constitution will bear. It gives to the settlers of any ter-ritory the right to make their own laws when they are numerous enough to form a State; it does not allow Congress or any other power, to do anything which will affect their future interests; it entirely supercedes the necessity of all such uncon-stitutional acts as the Missouri compromise and the Wilmot proviso, and leaves the whole matter to the d legitimate action of those who may go ettle. The declaration of the Kansas-Nebraska bill, "that it is not the intention to legislate slavery either into or out of the territory," is entirely useless, for by the constitution it has not the power to meddle with it at all. The constitution which choose it by their own acts, not by any prin-ciple existing within itself, or any bargain that it should ever extend when the Union was formed and the constitution made.
