The Three Judases.

The feeling of mortification and indignation excited by the treachery of the three individuals in the Pennsylvania legislature, who, elected by their constituency as democrats, had the lack of shame and honor to vote for Simon Cameron, the republican candidate for United States senator, is growing deeper and deeper, both in the Keystone State and in the country, at large, every day, as the enormity of the treason is deliberately comprehended. The first impulse everywhere, on the receipt of the humiliating tidings, was to vent upon the three Judases over the election of Cameron, but ominously sirepublicans everywhere ran tingling a burning blush of shame at the means by which General Cameron succeeded, that, in their very efforts to conceal it, has been but the more openly revealed.

ly becomes more degrading than in itself it is, when, as in this instance, it is suspected of being purchased with money.

It is said that these three Pennsylvania Judases will now be rewarded with place and the republicans once, and vouch that it will whom you cherished as your own children. not be so. The old illustration is not yet so trite but that it may be called into service again. The American colonies pointed the finger of scorn at Benedict Arnold. The English gloried in the treason, but they ever dispised the traitor. So the American democracy to a man point the finger of scorn at Lebo, Wagonseller, and Manear. The republican party may rejoice in the fruits of the treason, but they will ever despise the traitors. There is no longer place and power for them; there is no longer respect towards them; there is no longer peace of mind for them.

The cruel injury they have done the party that, confiding in them, has warmed them into political life, is irreparable : but the injury they have, in thus doing, inflicted upon themselves. is what will carry with it a punishment terrible enough for each to bear.

It is over. Let them go! Let them go where they can ! The republicans will not receive thems, and repudiation from her ranks and a sneer of contempt are all that the democracy will see fit to bestow upon the three Judases .-Washington Union.

A Mass Meeting of the Democracy of Bedmaledictions. THEIR EXCUSE!

The Abolitionists try to excuse themselves for their support of Gen. Cameron, by basely and maliciously charging upon Col. Now, mark how a plain tale will upset their position. Suppose, for the sake of argument merely, you admit that Col. Forney is all that his meanest enemies charge upon him, did that justify the opposition to the Democracy in taking a man whom their entire party had denounced, two years ago, as a "fit representative o nothing good, and a fit exponent of no honorable

principle"-as one who had procured his nomination n caucus by the "cohesive power of PLUNDER," and "by wholesale PRIVATE BRIBERY ?"-One whom JORDAN and 27 other K.
