AYER'S

FOR ALL THE PUFPOSES OF A FAMILY PHYSIC.

Trunk has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared as meet that demand, and an extensive trial of its victaes has conclusively shown with what success it accomplishes the nurpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have mone of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is actinomians and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbulance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being burdy vegetable, no harm can arise from their use in any quantity; but it is before that any medicine should to taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Janudice, Indigestion, Languer, and Loss of Appetite, Listlessness, Irritability, Bilious licadache, Billous Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humers, Serofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.
