

Strange Love affair in Indiana—Peculiar Interview between Lovers—Tragedy.

The Liberty Herald printed at Liberty, Union county, tells the following:—We have been placed in possession of some most melancholy facts in relation to a young man and a young lady, the former a resident of Pike county, Ohio, and the latter a resident of Oxford, It appears that the young gentleman is a student at West Point Military Academy, and the lady was his betrothed. Being absent from her a long while, he returned home some two weeks since, and found her married and in her second confinement. Although a correspondence had been regularly kept up between them, she had concealed the fact of her marriage, and of course he was startled to find how matters stood on his return.—The young man wisely determined to let matters pass off quietly, and seek friends and fortune in another place. In view of this determination he concluded not to see the lady, but unwise counsels of friends prevailed with him, and he went to the house where she resided.—While in a room adjoining that of the lady, she heard and recognized his voice, and expressed a desire for an interview with him. He immediately repaired to the room, where a most affecting scene occurred. She asked and obtained his pardon; the interview closed, and they separated. But what she had passed through was beyond her power of endurance, and that night her spirit passed from earth. The young man was not informed of her death until morning, when he attempted self-destruction by jumping into a mill race not far from where he resided. He would have succeeded in drowning himself, but for the accidental appearance of a gentleman wading his way along the race to the mill.—Immediately after he was taken from the water and resuscitated, his friends sent him to Cincinnati, where he would be away from the scenes that would bring to his memory the unhappy circumstances which had overtaken him at his home.

The Hog Cholera—Terrible Fatality.—Since we last wrote on this subject, a large number of hogs have died in this County, from the prevailing sickness, a kind of cholera. Messrs. P. A. & S. Small, at their grist mill, about two miles from town, are the heaviest losers. Up to noon of the 18th ult., one hundred and nine hogs, and one hundred and fifty hogs, had died; and on Saturday till Monday evening, fourteen more died. The hogs have for some time been running at large, in the wood, yet that does not seem to check the sickness. Some of the dead hogs, though not many, weighed over two hundred pounds; the general average is about one hundred and twenty pounds, each. Most of these hogs have been bought from Western drovers; the rest were home raised. P. S. We have a report from the mill up to Thursday noon, at which time there were one hundred and forty dead hogs; or thirty-one in the five preceding days. Jacob Myers has also lost a number of hogs not heretofore alluded to, and we are informed of the whole remnant of his drove hogs have died. Like Messrs. Small, Mr. Myers' loss is severe. A Mr. Free, distiller, in Manchester township, lost the next highest number—some accounts say two dozen. Six hogs of his own raising, died for Mr. John Hixstead, in Spring Garden township, two miles from York. Besides the above, other persons in the County, about whom we have not heard, have no doubt also lost some of their hogs. It is singular how quick after an attack the hogs die. In numerous instances, while eating the hog falls, and in a few minutes is dead.—York Pennsylvanian.

“MARRYING IN FUN.”—Another instance of the folly of “marrying in fun” is now exciting the people of Florida. It seems that a banking officer in that town met at a ball a young lady from this neighborhood, who was very good looking, sprightly and attractive. While talking with her, he proposed in jest that they should be married. The lady accepted his proposition, and they adjourned to a side room, where a person present was called upon to perform the ceremony, which he did to the infinite amusement of all concerned. The gentleman thought no more of the matter until the breaking up of the ball, when the fair partner called upon him to conduct her to his residence. He demurred, and thought she had better go to her own residence. She said, his home was her home, whether thou goest I will follow thee. He didn't hardly understand that she was his wife. She insisted upon her marital rights, and claimed that as the ceremony had been performed by a Justice of the Peace, it was a perfectly fair and legal transaction. Gentlemen inquired into matters; found that her positions were correct, and that he was in a bad box.—He is now endeavoring to ignore his wife and lack out of his bargain, with little prospect of success, however. The lady has before been married, and was it understood, divorced from her former husband, but under such circumstances admitted of her marrying again.

A PREP FOR THE POPULACE.—The Scientific American gives a very simple mode of examining the satellites of the planet Jupiter, the means used being so common as to be within the reach of all. It says: Every person can view them, by reflection, using a common looking-glass for the purpose. On a clear night take a looking-glass, and, either at the window or out of doors, so place it as to receive the impression of the planet. By a close examination of the planet as reflected in the glass all its satellites will also be observed, provided none of them are eclipsed. It is rather remarkable, however, that although these satellites can thus be seen, while they cannot be seen by the naked eye, that neither Venus nor the Moon can be seen so distinctly by reflection as they can be by observing them with the naked eye.

THE NEW CENT.—The Philadelphia North American is informed by Col. Snowden, Director of the United States Mint, that in about three weeks this much desired coin will be distributed to the public. About a million are already completed, and two millions more will be finished before the Mint commences paying them out. It is then to be hoped that the present cumbersome copper coin will disappear. Since the establishment of the U. S. Mint, 1,800 tons of copper cents have been coined, making of distinct pieces one hundred and fifty millions. Of these a large number have been lost, converted into “washers” for machinery or otherwise taken out of circulation. Col. Snowden estimates the quantity of Spanish coin still in the country, at no less than two millions of dollars.

Patented by J. H. MANNY, Sept. 22, 1851, April 12, 1852, June 21, 1853, March 29, 1854, Oct. 15, 1854, and by WALTER A. WOOD, 24th day of June and 1st day of July, 1855. The best combined MACHINE ever invented.

Combined REAPER AND MOWER.

From the success of last year's operations I take pleasure in announcing this Machine to the Farmers for the next Harvest, and feel assured it will fully meet their highest expectations.—It is easily managed, cuts clean and easy, is of light draft, and readily changed from a Reaper to a Mower, and vice versa, requiring not more than a minute to make the change. The alterations from last year are as follows, viz: All the Journals will be Case-hardened, the SIDES, GUARDS AND GEARING, will be built of the best Salisbury Iron, and wrought iron substituted for cast in several places. The Machine is made to mow lodged clover without obstruction, by simply removing four bolts and leaving off a part of the frame work. With these alterations and improvements the machine will be stronger than heretofore, when it was the only reliable COMBINED REAPER AND MOWER made.

The Machine is warranted capable of cutting from ten to fifteen acres of grass or grain per day, in a workman-like manner. N. B. Parties manufacturing Reaping or Mowing Machines, using WOODS' PATENTS, are cautioned against their further use, and are hereby notified that payment will be exacted to the full extent for the use heretofore made of them. For further particulars the Farmers are respectfully invited to call upon Blymire & Hartley, Agents for Bedford County, Pa., who will furnish Pamphlets containing Certificates, &c. For Sale by BLYMIRE & HARTLEY, Bedford, Pa. E. K. PARSONS, Harrisburg, General Agent for Eastern Pennsylvania. May 15, 1857.

Bedford, May 5th, 1857. Messrs. Blymire & Hartley: Gentlemen:—I purchased one of Manny's Reaping and Mowing Machines last year. Its reputation being the highest, and having seen it cut grain to my entire satisfaction, I bought it after grain harvest. My hay was cut with it; and, from its admirable adaptation to the purposes intended—having fully equalled the representation—I am pleased to recommend it to the farmers of Bedford County as an excellent Mower and Reaper, believing it fully worth the price asked as a Mower alone. JOHN WATSON.

DALLEY'S MAGICAL PAIN-EXTRACTOR.

The great and principle characteristics of DALLEY'S MAGICAL PAIN EXTRACTOR consist: 1st. Of its never-failing and unique property, as soon as applied to any external injury, to CHECK INFLAMMATION instantly, and rapidly to reduce it. This feature constitutes its great power to alleviate the pain of burns and scalds, and of other painful diseases, in so incredibly short a space of time, and as will appear from the few testimonials hereunto annexed. Every intelligent mind is fully aware that, in all cases of external injury, the pain is produced by inflammation of the injured parts; and therefore, if you remove the cause, the effect must cease. 2d. Its purificative properties neutralize the poison that may lurk in the system, and will, when applied to the sores, draw rapidly all impure matter to the surface, and eject it—hence the great discharge is produced from sores occasioned by burns—and when applied to old and inveterate sores, Salt Rheum, or other cutaneous diseases.

Each box of DALLEY'S PAIN EXTRACTOR has upon it a Steel Plate Engraved Label with the signature of C. V. CLACKENBURY & Co., proprietors, and HENRY DALLEY, manufacturer. Price 25 cents per box. All orders should be addressed to C. V. Clackener & Co., 81 Barley street New York. May 8, 1857—2m.

CHARLES. Friend Ayes—In this age of quacks, charlatans and mere windy gossamer pretenders to health, who blow at every corner, and in the face and ears of all men, their loud, blaring Jericho trumpets and other noisy boisterous wind instruments of variously twisted brass, in such a woefully sham ridden epoch as this, I say, it is comforting. May even clearing to the contrary, well wishes of his race to know there has arrived in this world a genuine physician—to light one more upon something besides mere Sangrados and Don Mercurial Julaps, with their phib-bomies, poison and warm water. Your Charbatic Pills, and Cherry Pectoral, carry us forward to Halcyon days—to medicinal Pharmacopoeas, when science, deep-diving down into the principles of things, shall, with infinite cunning, bring out the genuine Elixir Vitae: for of a truth there is manifestly enough something of that same Life Essence in your subtle vegetable distillations and compounds.

You realize to us the visions of those painless smoke-dried Alchemists—lowlife seekers—dreamers among rotors and crucibles, touching the quintessential hidden virtue of the universe, which should antidote distemper, and break for man the Wheel of Time. May 1, 1857—1m.
