Reduction of Terms!

THE "GAZETTE" FURNISHED TO SUB-SCRIBERS FOR \$1,50, IF PAID IN ADVANCE!

Imaccordance with the general wish of our subscribers we have concluded to reduce the sition. price of our paper to \$1 50 per annum, cash, in advance. If payment is not made in advance, \$2,00 will be charged if paid within the year : whenever a subscriber suffers his account to remain unsettled at the end of the year, \$2,50 last-not because we desired to have a personwill be charged. These Terms will be al controversy with any one, but because we strictly and invariably adhered to.

All of our present subscribers who will make payment before the first day of January next, the Democratic party, either thoughtlessly or shall receive the Gazette at the above named by design, by certain newspapers professing the rate of \$1,50 per annum, in advance, and those same principles that we do. We have not had, who have already paid us \$2.00 for the present nor can we have, a personal controversy with volume, shall have a credit of 50 cents on the G. Nelson Smith-we do not consider him of next.

THE NEXT LEGISLARURE.

In view of the fact that the interests of the public loudly demand a change in the system of our currency, the question frequently presents itself, to our mind, what can we expect of the next Legislature in answer to that demand? Will the Democrats in that body stand up in the tracks of their sires and speak out for a Constitutional currency? Will they imitate the example of Jackson and profit by the advice of Washington? Will they show themselves true to the principles that have ever been inscribed on the banners of the party-opposition to bank's of issue, and to the encroachments of corporations on the rights of the people? If they are men who care for the good of the people, as well as of their party, they will do so. If they are Democrats in heart-if they are above the atmosphere of corrupt influences that surrounds our State Capitol -- they will certain-

The people will look with anxious eyes to the sittings of the next Legislature. It is already a subject of grave and serious speculation-whether or not a majority of the members of that body will be open to the seductive bribery of the banks? Indeed it has become notorious that, our legislatures have been venal and corrupt to the last degree. Therefore, the Democratic Senators and Representatives at Harrisburg, can, if they will, during the coming winter, do a work that will reflect a double lustre upon their character-they can serve the best interests of their constituents, and wipe from the escutcheon of our Commonwealth, the stain which bribery and corruption, in past years, bave marked upon it. There is a bright goal shining ahead of the Democrat who will square his conduct, in the halls of Legislation, by the full measure of an honest man's stature. and who will boldly breast the infernal streams that ever flow from the coffers of banks and corporations. Who will win that goal? Who or not. will be the good genius that, like Jackson of ANNUL MESSAGE OF THE GOVERNOR old, will, against every shape of opposition to his course, step between the destroyer and his victim?

It is surely high time that our Legislative bodies be purged of the infamous outside mon- account of the cendition of affairs in that prosey and boring influences which have disgraclaimed in words that would sear themselves in their hearts forever the description. The policy of the Democratic party in relation to banks and corporations, is clearly defined. The Democrat who, in the next Legislature proves, untrue to that policy, will leave of the trust reposed in their hands. The simple fact. however, of their naming, among the list of aspirants for this high trust, a man who had, only last winter, shamefully and recklessly absented himself from a democratic caucus, and afterwards refused to rote for the man who had been fairly and legitimately nominated for a seat in the United States Senate, was well calculated to make an impression upon some, that is to violate the sacred trust reposed in a Rep- sake. resentative by the Sovereign People -No one can successfully defend the doctrine that the Legislative Representative who refuses to go inty, and then hurls defiance at the decision of the majority, is worthy the respect and confidence of honest Democrats-and, if there is any paper in the Commonwealth, not under the immediate influence of the apostates who last winter indirectly aided in the election of Simon Cameron, we will take great pleasure in arguing out the point involved in the question of offering "a premium for treachery."

It is not expected that we will argue this question with either the Echo or Sentinel, of Cambria county, because, in the language of the Sentinel "nothing in the world is easier than to call hard names," and this is the sum and substance of all that appear in their columns. The Strength of the Mormons,

The Sacramento Age thus speaks of the actual power of the Mormons:

At the order of their leader and prophet they can muster 15,000 men, armed with the most effective instruments of destruction. They have many thousands of the finest horses, trained to camp service; they have a foundry where cannon and shells are cast; a powder mill and a factory where revolving rifles and pistols are manufactured, equal to those made at Hartford. They have every munition of war and provision and means of transportation within themselves, and even the women and children are instructed in the use of arms.

Add to this their geographical position. To reach Salt Lake from the east, it is necessary to pass through a cannon of twenty-five miles, under hills so steep and rocky that a dozen men could burt down an avalanche of stones on an approaching caravan; and even in the event of everal thousand troops reaching the valley,

> A man named William Terpenning, lives in that place, who has the reputation of doing borhood. A day or two previous, a cow belonging to an individual with whom Terpenning had quarrelled, was "hamstrung," and suspicion at once rested on the scapegoat of the neighborhood. It is stated that the evidence is rather

strong against him. About 12 o'clock on Thursday morning, eleven men broke into Terpenning's house, tied a rope around his neck, and dragged him from his bed. They then tied his hands behind him, took him to a secluded place, about a mile from his house, and commenced whipping him with horsewhips. They told him that they would lash him until he owned that he had cut the cow but he denied having done so. They then tied his feet and took turns at whipping, occasionally resting to ask him to confess; but he continued to protest his innocenue until about 5 o'clock when, he says, fearing that they would whip him to death, and then swearing that they would do so if he did not own it, he acknowledged that he had hamstrung the animal. He was then taken to the house of one of the party, and he alleges, his body exposed in an inde-

Rayman, lately sentenced to the State prison for the post-office robbery in Chicago, to accompany her husband to Alton, and to remain there during his term of imprisonment. The resolve of Mrs. Brayman is a noble one, and the sympathy of evry generors and feeling heart will be with. her. A similar case has recently occurred in Loraine county, Ohio. A man named Horace

Fleming was sentenced to the penitentiary for

larceny. His wife, Mary Jane Fleming, im-mediately made an attempt to set fire to her house, delivered herself up, and pleaded guilty of arson. She did this for the purpose of sharing her husband's captivity. In connxion with these instances of woman's devotion, we may mention the singular fact,

large majority of the married male prisoners. are visited constantly and condoled with by -The New York Journal of Commerce says their sorrowing wives. And yet how many of the murder of Mr. Swanston, in New York, in that the taxes of that city are now at the stagbrutality at the hands of their criminal hus-
