"Where go you, pretty Maggie, Where go you in the rain? "I go to ask the sailors

Who sailed the Spanish main, "If they have seen my Willie, If he'll come back to me-

Tis sad; to have my darling A sailing on the sea!" O, Maggie, pretty Maggie, Turn back to yonder town,

Your Willie's in the ocean, An hundred fathoms down! His hair has turned to sea-pelt, His eyes have changed to stones, And twice two years have knitted

The coral round his bones. The blossoms and the clover Shall bloom and bloom again, But never shall your lover

Come o'er the Spanish main. But Maggie never heeded, And mournfully said she: "Tis sad to have my darling A sailing on the sea!"

She left me in the darkness; I heard the sea gull 's screech, And burly winds were growling With breakers on the beach. The blythe bells of Nantucket, What touching things they said,

When Maggie lay a sleeping

With lillies round her head!" The parson preached a sermon, And prayed and preached again-But Maggie's gone to Willie Across the Spanish main!"

Bloody Marrain.

I have lately seen it stated in the papers that this fatal disease had appeared among western cattle; another writer pronounces the disease in-curable. In the absence of proper books setting forth the western diseases of cattle, I have thought it a public service to say something to the readers of the Record on this subject.

Bloody Murrain-Causes .- Many persons think this disease infectious; no doubt the bloomy discharges in a herd of cattle intensify the predisposing causes, but nothing more; and for that reason the diseased animal should at once be removed from its fellows. I believe the disease to be caused by malaria. It generally appears in excessively wet pasture, and where cattle have been fed a long time in a short space of surface, fouling the soil.

Symptoms .- Yellowish water infused in the ordinary white coats of the eyeballs, and exhibited in the urine, drooping, and great inactivity; loss of appetite, and especially if the diseased animals stand apart, and become solitary for some days before the disease fatally exhibits itself; then follow bloody discharges from the bowels; and sometimes the urinary vessels, as death approaches.

Preventives .- Keep always, in tight troughs, salt sprinkled on ashes, accessible to the cattle. This is almost a sure preventive; occasionally, however, as cattle get very fat, remove them to new standing places.

Cure .- As soon as the animal shows any of the above symptoms, remove him at once from the herd; mix common slacked lime as if for whitewash, and give a full grown bullock from three to four pints of it at once; if this does not cure, the case is hopeless; so far as my experience goes. The lime acts not only as a powerful purgative, but in some other unknown way, purgatives fail to have any efficient result. I need hardly say that the sooner the

ball given in Berlin on the 20th of January in honor of the royal wedding .- The Baron allows neither his advanced age nor his great acquirements, and world-wide fame to entitle him to any dispensation from the minutest and most scrupulous attention to etiquette and costume, and willingly condescends on occasions like the one in question, to assume his chamberlain's costume, and his numerous orders, with all the careful attention to exterior befittquent occasions of uneasiness to his friends and admirers, though he rallies from each attack with most surprising rapidity.

Which is a purely vegetable Preparation, for the purifying of blood, giving vigor to the Liver, stomach and bowels, and expelling from the system all morbid matter, and substituting in its stead a healthful activity through all the functions of life.

In the fall of 1854 a daughter of Mr. Lindsey was suffering from a malignant attack of Cancrum Oris (Canker of the mouth.) She had previously been prostrated by the attacks of Dysentary, Inflamation of the lungs and Hectic Fever, successively, which resulted in the above named disease in its worst form. Her condition was most deplorable—her mouth and cheek were literally rotten—the attending physician pronounced the case a hopeless one. Everything indicated a speedy and horrible death—the death of rotting out of life! At this critical juncture Mr. Lindsey prepared a compound for the purpose of alleviating, possible, the pains of the little sufferer. She was made to use it freely, and in a short time to his most delightful astonishment, there was a very perceptible change for the better. The mouth began to put on a bright and healthy appearance—the foul breath became sweet—the appetite was restored, and the child seemed to partake of a new and fresh life.

new and fresh life.

Hope was inspired, and the use of the compound Hope was inspired, and the use of the compound was faithfully continued, the result of which, with the blessing of God, was her complete restoration.—
She is now perfectly healthy! From this circumstance, Mr. Lindsey was led to prepare with greater care and exactness, what had so astonishingly cured his child, and continued his experimental efforts until he succeeded in bringing to perfection his Great Remedy for Blood Impurity—since which time its effects have been almost miraculous. Hundreds upon hundreds, by it, have been snatched from an untimely grave and restored to the sweets of health and the endearment of friends, The young and old have tested it, saving powers and sing aloud its virtues. Say they—"after using Lindsey's Improved Blood Searcher, we felt as if a new life was stirring our veins, and under God we owe to it more than words can express."

But hear from their own lips and then judge of its valuable effects. The few testimonials that follow show that it is deservedly styled the Greatest Discovery of this or any other age.

greatest misery; my face was almost constantly running with the foul corruption that escaped from the
tubercles, by which it was almost completely covered. After being under the care of my physicians for
near two months, without the least benefit, I was induced to make a trial of Lindsey's Blood Searcher,
and the result was that in using one bottle and a half
I found a perfect cure, I may also say that I eagerly
tried whatever was recommended as a cure.—

AN INTERESTING CASE OF SCROFULA cared by one bottle of Lindsey's Blood Searcher.
—This certifies that about one year ago our little son aged four years, was most sorely afflicted with what the physicians pronounced to be a scrofula, and was treated accordingly for nearly a year, but without the slightest benefit. His eyes were running and judge for themselves. at this mattery humor almost constantly; which would encrust his eyes beyond the power of opening them until they were washed and cleaned by soap and water. About the same time an abscess formed just below the groin, which in due time broke and commenced a discharge, which was found impossible to dry up or heal—the bed would be very much stained and the clothing of the child perfectly sickening in a single nights time. After having the attentions of a physician for so long a time, and finding the child to physician for so long a time, and finding the child to be getting worse, we determined to try the effects of Mr. Lindsey's Blood Searcher. This was in last March—and before two weeks had passed away the March—and before two weeks had passed away the change was manifest, and I am happy to say that in the use of a SINGLE BOTTLE our little boy has been perfectly restored to health. We cannot speak too highly of this invaluable medicine. It should be in every family—none should be without it. As a pu-

rifier of bloodit is beyond all price! summer, and I deem it to be a matter of duty to bear summer, and I deem it to be a matter of duty to bear my testimony to its invigerating blood restorative virtues. I have been for a number of years severely troubled erysipelas and general debitity; but since I put myself under the influence of your Improved Blood Searcher, I find a very decided improvement, Indeed, my-acquaintances frequently remark, that I look so "fat and hearty;" and I know of no other cause than the use of your Improved Blood Searcher, Judging from my own experience, I believe that this is one of the most valuable medicines that woman can use, especially those who are or have entered MRS.
