

Farmers' Column.

Difference in Cows.

Cows, under certain constitutional circumstances, are naturally disposed to convert their food into fat, so much so that there is great difficulty in keeping some classes in a breeding state, more especially improved Short Horns, Devons and Herefords.

On the other hand, there is a class of cows naturally inclined to turn all their food into the pail. Turn a cow of this kind along with the one above, and she will rather get poorer every day, if the milk is taken from her, while her plump and sleek rival is gaining weight.

The above two classes may be called extremes, between which there is a mean, and this latter class of cows, if turned into a rich pasture along with the others, would keep themselves in good condition, and give a medium quantity of milk, the quantity depending upon the richness of the food.

Cure for Ringbone.

Having noticed an inquiry in the Rural for a cure of Ringbone, I thought I would send one, which I know to be sure, it having cured a valuable horse for me, after lameness of two years, during which time the horse was not harnessed.

Another remedy.—Noticing in a late number of the Rural an assertion that there was no cure for the Ringbone, I beg leave to disagree with that opinion. I cured one the past summer, by the use of Balsam of Fir rubbed on until it penetrated the skin, then thoroughly heated it with a hot iron, and continued until a slight soreness was discovered.

Humanity to Horses.—A person who has had some experience with horses says: "When a horse has fallen, from the slippery state of the ground, the readiest method of enabling him to rise is to place a piece of old rug or carpet under his forefeet, and he will be able to get up at once.

The Potato Disease.—The potato disease has had great progress in England and Ireland, the past season. So convinced of the injurious effects of the potatoe are some of the physicians, that they have denied their use to children, as liable to create eruption, and to injure the stomach.

Agricultural Shorter Catechism! What are Tiles?—A yankee invention for draining pockets; so called from the resemblance to the prevailing style of gentlemen's hats.

What is Buckwheat?—Masculine wheat. The female is called dough.

What is Breaking?—A western phrase signifying a regular smash-up of patriotism. The present pressure has been so heavy as to break things generally out West.

What are Wild Oats?—A kind of grain usually sown broadcast by farm boys—good enough for fast horses.

What is Calbage?—A plant popular among tailors with large families.

How are Vegetables best Preserved?—Place them in a seller's hands—or bury them in peaches.

What is "Garden Sars"?—Cultivated impertinence.

What Fruit feeds Garroters?—Choke pears. They are also familiar with artichoke.

Why are people with corns like certain vegetables?—Because they are turnips.

Is there a Vegetable Hen?—Yes; the eggplant.

How can Young Ladies secure Farms?—Take a "country gentleman."

POETRY.

From the Charleston Courier. FOUR HUNDRED YEARS AGO.

Wild were thy plains, Columbia, Thy plains of evergreen: And ne'er before upon thy shore Were foreign foot-prints seen;

With heart of steel that fear'd no ill, With followers true and brave, He bade farewell his native dell, And tried the treacherous wave;

Faith was the guide—faith true and tried— That cheered him on his way, And pointed out the pathless route To where thine islets lay;

But chang'd the scene since then, I ween— The savage chieftains fled, And where of old the grim wolf stroll'd, Proud cities reared their head;

On many a crag our starry flag O'er waves o'er the brave and free, Our natives ride in all their pride, On every sounding sea;

And far away where the wild winds play Through the forest's dismal night, An iron steed with lightning speed Darts like a ray of light;

Then, hail Columbia, happy land, Home of the poor oppressed! May still to thee the exile flee, And find a place of rest;

A KNUCKLING BILL.—General Duryear has given notice of, and is prepared to introduce into the New York assembly, a bill to prohibit the manufacture, sale, and possession of the brutal and murderous weapon recently come into general use, and known as "brass knuckles."

The Biter Bitten.—In a town on the line of Essex and Middlesex counties, Mass., a hen-house was entered and robbed. The next morning the owner missed his biddies, but discovered the portemonnaie of the thief, containing sixty dollars and his name, lying on the floor.

LADIES CARRYING PISTOLS.—The New Orleans True Delta says there is a movement going on in that city having for its object the introduction of the custom of ladies carrying pistols—small pistols, such as are known as vest pocket pistols, and which can be stowed without incumbrance, in the pocket of the fur shooter's dress, in order to protect themselves from ruffian violence and insult.

Sealed proposals—as the chap said when he kissed his sweetheart.

SAVE YOUR MONEY!

THE UNDERSIGNED would respectfully inform the travelling public, that he has established a daily line of stages between Bedford and Latrobe. The route is that of the old Philadelphia Turnpike, leading from Philadelphia to Pittsburg, being one of the best coach roads in the Union.

DISSOLUTION OF PARTNERSHIP. The partnership heretofore existing and trading under the firm of Barnollar, Lowry & Co., and Everhart, Astrom & Co., has this day been dissolved by mutual consent.

THE subscribers take this method of informing the public that they will continue the business of merchandising at the old stand and hope by strict attention to business to receive a liberal share of public patronage.

sworn according to law, do depose and say, that in the spring of 1856, I was a victim to that worst of diseases—dyspepsia, and that in its worst form. My appetite was completely gone, and when, in order to preserve life, I would force myself to swallow a mouthful of food, the stomach would reject it, and I would suffer with the age; each attack lasting about nine months out of the twelve, so that, with beyond recovery; I thought I must die, my physician could do me no good. Such was my condition, when Mr. Lindsey supplied me with a bottle of his improved blood-searcher, assuring me it would work a cure. I commenced its use but with little confidence, but, in one week's time—my appetite returned, my stomach received a new tone, so that I could eat anything without the slightest inconvenience, and before its healing touch the acute died as from a charm; nor have I been troubled with acute or dyspepsia since.
