BY CHARLES MACKAY.

If Fortune with a smiting face Strew roses on our way, When shall we stoop to pick them up? To-day, my love, to-day. But should she frown with face of care,

And talk of coming sorrow, When shall we grieve if grieve we must? To-morrow, love, to-morrow.

If those who've wronged us own their faults And kindly pity pray, When shall we listen and forgive? To-day, my love, to-day.

But, if stern Justice urge rebuke, And warmth from Memory borrow, When shall we chide-if chide we dare? To morrow, love, to-morrow.

If those to whom we owe a debt Are harmed unless we pay, When shall we struggle to be just? To-day, my love, to-day. But if our debtor fail our hope And plead his ruin through, When shall we weigh his breach of faith? To-morrow, love, to-morrow.

If Love, estranged, should once again Her genial smile display, When shall we kiss her proffered lips? To-day, my love, to-day. But, if she would indulge regret, Or dwell with by-gone serrow, When shall we weep-if weep we must? To-morrow, love, to-morrow.

For virtuous acts and harmless joys The minutes will not stay; We've always time to welcome them, To-day, my love, to-day. But care, resentment, angry words, And unavailing sorrow, Came far too soon, if they appear

To-morrow, love, to-morrow. WOOD AND GUNPOWDER INCOMBUSTIBLE .-The day of fire annihilators does not seem to have entirely gone by. A French artillery office has made a singular discovery, by which all danger from explosion of a powder magazine may be prevented. His method is to mix the powder with common coal dust. Its efficacy has been demonstrated on a large scale, by filling a magazine with the mixture, and then setting it on fire, but no explosion took place, and after burning a considerable time, the fire was extinguished by applying water. The gunpow-der burned like other combustible matters, such as pitch and tar, from which it is presumed the dust must have been that of bituminous coal. When the powder is required for use, nothing more is needed than to separate it from the dust by means of sieves, when it resumes its original explosive property. The theory of this curious discovery is very simple-the dust prevents the several grains of powder from coming in contact with each other; hence, as one explodes, the dust prevents the explosion from reaching another grain. But a fire-annihilation discovery, which is much more likely to become generally useful, has also been made in France by M. Carperon, who has proved its value by numerous experiments made in presence of the Emperor. The process renders wood, tissues of all sorts, dresses, decorations, &c., absolutely incombusti-Ladies' dresses of the most gauze-like materials were set fire to, and would not burn. An officer's tent, containing a bed with muslin curtains, resisted successfully the application of numerous flaming torches. A cottage, half of which was secured by M. Carperon's preparation and the other half filled with straw, was set on the other half filled with straw, was set on the other half filled. The flavor quick fire on the unprotected side. The flames quickly spread and raged with fury, and consumed half the building; but the fire died away when it reached the prepared part, and left it sound and altogether uninjured. A theater was then prepared, with all its scenery, robes and decorations, and repeated attempts were made to destroy it by fire, but in vain-it would not burn. Such a discovery introduced into our cities, and German girls, who are so frequently burned

THE WONDER OF THE AGE!

J. M. LINSEY'S GREAT MEDICAL DISCOVERY! Which is a purely vegetable Preparation, for the purifying of blood, giving vigor to the Liver, stomach and bowels, and expelling from the system all morbid matter, and substituting in its stead a healthful activity through all the functions of life.

HOW IT WAS DISCOVERED! In the fall of 1854 a daughter of Mr. Lindsey was suffering from a malignant attack of Cancrum Oris (Canker of the mouth.) She had previously been prostrated by the attacks of Dysentary, Inflamation of the lungs and Hectic Fever, successively, which resulted in the above named disease in its worst form. Her condition was most deplorable—her mouth and cheek were literally rotten—the attending physician pronounced the case a hopeless one. Everything indicated a speedy and horrible death—the death of rotting out of life! At this critical juncture Mr. Lindsey prepared a compound for the purpose of alleviating, possible, the pains of the little sufferer. She was made to use it freely, and in a In the fall of 1854 a daughter of Mr. Lindsey was sufferer. She was made to use it freely, and in a short time to his most delightful astonishment, there was a very perceptible change for the better. The mouth began to put on a bright and healthy appearance—the foul breath became sweet—the appetite

C. W. ASHCOM.

MRS. H. D. PEUGH & CO., respectfully invite the attention of the Ladies of Bedford and vicinity to their new and handsome stock of goods just opened

Pattonsville, Bedioid co., Pa., Oct. 14, Or.
Mr. J. M. Lindsey.
Dear Sir:—I was severely afflicted with rheamatism for a whole year—nine months of which time I was not able to leave my bed—when hearing of the wonderful effects of your Improved Blood Searcher, and believe it is all it claims to be.
Yours, truly, JOHN SHAFFER. Yours, truly,

A DESPERATE CASE OF TETTER and BARBER'S ITCH, cured by the use of Lindsey's Blood Searcher. I, the undersigned, sometime in ast March was severely afflicted with what was pro nounced by my physicians to be a certain kind of Tet-ter and Barber's Itch. My condition was one of the greatest misery; my face was almost constantly run-ning with the foul corruption that escaped from the tubercles, by which it was almost completely covered. After being under the care of my physicians for near two months, without the least benefit, I was in-duced to make a trial of Lindsey's Blobd Searcher, and the result was that in using one bottle and a half I found a perfect cure, I may also say that I eagerly tried whatever was recommended as a cure.— Such was my wretchedness that I even resorted to the dangerous experiment of pouring pure Creosote on my face and neck, but all to no purpose—the Blood Searcher was the first and only thing that did me any good. As a blood purifier it is unequalled; & I have great reason to be grateful that I ever made a trial of its healing virtues, and I confidently recom-mend it to any who may suffer from Tetter, or any ther disease arising from an impure state of th dond. JOHN DELEHUNT. Hollidaysburg, Pa., July 29 1857.

AN INTERESTING CASE OF SCROFU-LA cured by one bottle of Lindsey's Blood Searcher.

This certifies that about one year ago our little to receive a liberal share of custom. Persons Bedford, Nov. 13, 1857.

LIVER COMPLAINT CURED BY Lindsey's Improved Blood-Searcher.—Blair County, ss. Personally appeared before me, one of the Justices of the Peace, in and for Blair county, George Kopp, who, being duly sworn according to law, doth depose and say: Two years ago I was afflicted with pain between the shoulders, almost constant cough, loss of appetite, chills, nightsweats, and very subject to take colds; I, at length, became so weak that I could hardly walks my physician done me negocial some take colds; I, at length, became so weak that I could hardly walk; my physician done me no good. Sometime last fall, I commenced taking Lindsey's improved blood-searcher, and by the use of two bottles was perfectly cored. I feel, to recommend it to all who suffer from Liver diseases, general debility, loss of appetite, an other diseases arising from impurity of the blood. I would not like to do without it.—I consider it an excellent family medicine.

Sworn end subscribed this 15th day of March, A. D. 1857, before me, J. GORLEY, J. P. NOTE.—Mr. Kopp is a resident of Frankstown, and is well known to the citizens of Blair and Bedford counties as a man of excellent character and influence.

s worn according to law, do depose and say that in the spring of 1856, I was a victim to that worst of diseases—dyspepsia, and that in its worst form. My appstite was completely gone, and when, in order to preserve life, I would force myself to swallow a mouthful of food, the stomach would immediately loath it, and east it forth with the spittle. I had also been suffering with the ague; each attack lasting about nine months out of the twelve, so that, with the ague and dyspepsia, I was reduced as I thought about nine months out of the twelve, so that, with the ague and dyspepsia, I was reduced as I thought beyond recovery; I thought I must die, my physician could do me no good. Such was my condition, when Mr. Lindsey supplied me with a bottle of his improved blood-searcher, assuring me it would work a cure. I commenced its use but with little confidence, but in one week's time—so great was its restorated. cure. I commenced its use but with little confidence, but, in one week's time—so great was its restorative powers—I found my appetite to return, my, stomach received a new tone, so that I coeld eat anything without the slightest inconvenience, and before its healing touch the ague fied as from a charm; nor have I been troubled with ague or dys pepsia since. I enjoy a better state of health than I had done for fifteen years before; I am strong and hearty, and I feel confident that, under the blersing of God, I owe all to the invaluable Improved Blood-Scarcher. I believe it not to be only a sure remedy for ague, but an infallible preventive, and, as such, I searcher. I believe it not to be only a sure remedy for ague, but an infallible preventive, and, as such, I would recommend it to all whose business, hat its, or resdiences, expose them to this dreadful pest of humanity. Dyspepsia cannot stay where the Improved Blood-Searcher is properly used. I feel it my duty to point all who suffer, to this all-healing medicine.

ty to point all who suffer, to this all-healins medicine. (signed.) JOHN MORAN, Sworn and subscribed this 18th day of March, A. D. 1857, before me. John Cox, J. P. FOR SALE by Dr. F. C.
