**DR. HARMAN.**  
ANALYTICAL PHYSICIAN AND PHYSICIAN FOR DISEASES OF THE LUNGS, FORMERLY PHYSICIAN TO THE CINCINNATI MARINE HOSPITAL, AND INVALIDS RETREAT, Author of "Lectures to Invalids," &c., Editor of the "Medical Stethoscope," &c., MAY BE CONSULTED AT BEDFORD, PA., "WASHINGTON HOUSE," WEDNESDAY, OCTOBER, 13th 1858.

Dr. Harman treats Consumption, Bronchitis, Asthma, Laryngitis, and all diseases of the throat and lungs, by Medicated Inhalation, lately used in the Bronchial Hospital, London. The great point in the treatment of all human maladies, is to set at the direct manner. All medicines are extracted by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the stomach is diseased we take medicines directly into the stomach. If the lungs are diseased, breathe or inhale medicated vapors directly into the lungs. Medicines are the antidotes to disease and should be applied to the very seat of the disease. Inhalation is the application of this principle to the treatment of the lungs, for it gives us direct access to those intricate air cells and tubes which lie out of reach of every other means of administering medicines. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is so simple, that it can be employed by the youngest infant or feeblest invalid. It does not derange the stomach, contract or loosen the bowels.

Dr. Harman's Lectures.—In relation to the following diseases, either when complicated with Lung affections or existing alone, I do invite consultation. I usually find them promptly curable.  
Pneumonia and all other forms of Heart Diseases, Liver and Gall Bladder Diseases, Dropsy, Pleurisy, Ligeal Complaints, Dyspepsia, and all other diseases of the Stomach and Bowels, Piles, &c., &c.  
All diseases of the eye and ear, Neuralgia, Epilepsy, and all forms of nervous diseases.  
Dr. HARMAN, M. D.  
No charge for consultation.

**Hammon-Lands—NEW OPPORTUNITY.**—TO ALL WANTING FARMS—A healthy place, twenty-five miles from Philadelphia, on the Camden and Atlantic railroad, New Jersey. An old estate has been recently opened for sale, and the first division of 10,000 acres divided up into farms of twenty acres and upwards. The soil is of the best quality for the production of fruits, grains, &c. The price is \$15 to \$20 per acre, payable in four years, yearly instalments, with a term of years, in order to insure the rapid improvement of the land, by enabling every American man to buy a farm, and some of the best citizens proved by good roads, and the Middle States are erecting New England mansions. It is a scene of the greatest improvement of Philadelphia. Seventy-five houses have been built in four months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy loam, with a clay bottom and retentive in manure. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large areas adjoining under cultivation, it will be found not to be excelled anywhere in the world. The crops are most adapted to its market. The reader may well be aware that the earliest and best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land, besides being access to an easy and fertile soil, has an abundant supply of the best quality of muck manure. Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brick-making started on the ground. A person can put up a frame tenement for not more than one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order to get a place to live in at first. Carpenters and builders are being held to put up houses on the best terms. It is within a few hours' ride of the great cities in the Middle States and New England; it is a healthy and associating; it is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the uncertainty of losing the greater part of his family and his own health by the malignant fevers which make the graves of so many millions of the young and hardy in far off regions away from home and friends. Besides, he has a mild climate, and an open winter. There are three trains daily to Philadelphia, and the railroad company gives a free ticket. The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless his statements were correct, no one would be present to examine before purchasing. This all are expected to do—they will see the land under cultivation; they will meet persons, no doubt, from their own neighborhood; they will witness the improvements, and can judge of the character of the population. Persons should come prepared to purchase, as many are locating, and locations are not held on refusal. The Hammon-Lands, a monthly Literary and Agricultural sheet, containing full information of Hammon-Lands, will be sent to each inquirer, and can be obtained at 25 cents per copy. *Title indisputable. Warranted deeds given, clear of all incumbrances, when purchase money is paid. Route to the land—Leave Vines street wharf, Philadelphia, for Hammon-Lands by railroad at 7 A. M. and 3 P. M., when there inquire for Mr. Byrne. Boarding accommodations will be found at the depot. Letters can be addressed to S. B. COUGHLIN, 409 South Fifth Street below Walnut, PHILADELPHIA. Maps and information cheerfully furnished. (Aug. 27, '58.)*
