holders, if anything, are a little firmer in their views: the demand for shipments, however are limited and we are only advised of sales of 400 bbls standard superfine at \$5,500bbls good and choice extras at \$5,500 to 5,75;150 bbls extra relived \$6, and 700 bt bbls superfine at \$5. Oct. 22, 158. views: the demand for shipments, however are 371 to 5 50 the pair ; the retailers and pakers are buying moderately within the same range ADMINISTRATOR'S NOTICE. of quotations, and fancy lots at \$6 25 to 6 50 per bbl. Of Corn Meal, a sale of Penna, is reported at \$1 per bbl.

GRAIN .--- There is not so much Wheat offering to day, but the demand for it is limited, and prime lots scarce ; a few small sales of fair quality only have been made at 118 to 120 for red and 127 to 130 for white. Rye is wanted, and Pennsylvania readily commands 75c. Corn is not so plenty, with further sales of 1500 bushels old Penna, yellow, to note, at 80c in store; new is quoted at 60 to 67c, as to dryness and not much offering. Oats are in fair de mand at 43c, and rather scarce. Barley dull, and a sale of 400 bushels good Pennsylvania was made at 674c. SEEDS.-In seeds we hear of sales of about

450 bushels of Cloverseed at \$5 75 to 6 per bushel, mostly at the latter rate for recleane serd. Timothy is worth \$2 121 per bus.

Coburgs and Merinos, in all desirable colors fro Coburgs and Merinos, in all desirable colors fro 25 cents up, plain and printed Persian Cloth, from 12½ cts up, printed Flannels, Indian Scotch Plaid and Bay State Blanket Shawls, from \$1.50 up, gloves and hosiery, dress trim-mings and fringes, merino uncer shifts and drawers contracts and scafe blackhold and up. SATURDAY, NOVEMBER 20th 1858. Dr. Hardman treats Consumption, Bronchitts, Asthma, Laryngitis, and all diseases of the throat and lungs, by Medicated Inhalations lately used in the Bromton Hospital, London. The great point in the treatment of all human watatles, is roger at the direct manner. All medicines are estimated by direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is bas-ed. If the stomach is discased we take medicines directly into the stomach. If the lungs so discas-ed, breathe or inhale medicated vapors directly into the lungs. Medicines are the antidotes to disease and should be applied to the very seat of the disease. Inhalation is the application of this principle to the treatment of the lungs, for it gives us direct access to those intricate air cells and tubes which lie out of reach of every other means of administering medi-cines. Inhalation brings the medicine in direct con-tact with the disease, without the disadvantage of
