PHILADELPHIA .- The close attention which our own Grallement - Ine close attention which our own affairs have required since the fire, has hitherto prevented us from writing to you about the Safe. On the occasion of the fire 19th July, by which we suffered a large loss, our store, with a number of other buildings, was consumed. The Safe, of your manufactured buildings, was consumed. ture, which we had in the store, was exposed to most intense heat, as is well attested by the effects strong iron frame, which, from its flaked and scaly appearance, looks as though it had been heat-ection along time in a furnace. The Safe, with heaps of molten glass and kegs of nails, fused into a erials, and there was suffered to remain, (as the optents had been removed before the fire reached on the the ded of Angust 11 days of the many continuous and the search of the searc
