GLAND SETTLEMENT.—RARE OPPORTUNITY.—TO ALL WASTING FARMS—in a healthy place, twenty-five miles from Philadelphia, on the Camden and Atlantic railroad, New Jersey. An old estate has been recently opened for sele, and the first division of 10,000 acres divided up into farm of twenty acres and upwards. The soil is of the best quality for the production of fruits, grains &c. The price is \$15 to \$20 per acres, payable in easy quarterly yearly instalments, with a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. sy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy-five houses have been built in four months. Practical farmers and business built in four months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The roil is a sandy loom, with a clay bottom and retentive of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the largearea adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops most adapted to its market. The reader may be well aware that the earliest and best fruits and vegetables come from New Jersey, which are annually exaware that the earliest and best fruits and vegeta-bles come from New Jersey, which are annually ex-ported to the amount of millions of dollars. The land, besides being accessible in every way for fer-tillizers, has an abundant supply of the best quality of muck manure. Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brick-yards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive em-gration, this is the best course to pursue, in order to gration, this is the best course to pursue in order to get a place to live in at first. Carpenters and build-ers are on hand to put up houses on the best terms.

In settling here the emigrant has many advanta-ges. He is within a few hours' ride of flue great ci-ties in the Middle States and New England; he is near his old friends and associatious; he is in a set-tled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and hardy in far off regions away from home and friends. Besides, he has a mild way from home and friends. Besides, he has a mild climate and an open winter. There are firee trains daily to Philadelphia, and to all those who improve the railroad company gives a free ticket. The reader will at once he struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine before purchasing. This all are expected to do—

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

many of the worst cases to be found of the following complaints:—
Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheum, Scald Head, Syphilis and Syphilitic Appections, Mercurial Disease, Dropsy, Neuralgia or Tic Douldureux, Desputy, Dyspheria and Indigestion, Eryspe-DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSPE-LAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

whole class of complaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of his is disordered or overthrown.

Sarsanguilla has, and deserves much, the reputation.

or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

any thing else. During late years the public have been misled by large bottles, pretending to give a quart of Ex-tract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
