TIO INVALIDS.—DR. HARDMAN—
ANALYTICAL PHYSICIAN AND

Physician for Diseases of the LHNGS.

Editor of the "Medical Stethoscope," &c., Dr. Hardman treats Consumption, Bronchitis, Asthma, Earyngutis, and all diseases of the throat and lungs, by Medicated Inhalations lately used in the Bromton Hospital, London. The great point in the treatment of all human maladies, is to get at the direct manner. All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the stomach is diseased we take medicines directly into the stomach. If the lungs are diseased.

One dose after eating to sufficient to relieve the consumption of the stomach is diseased. ed. If the stomach is diseased we take medicines directly into the stomach. If the lungs are diseased, breathe or inhale medicaied vapors directly into the lungs. Medicines are the antidotes to disease and should be applied to the very seat of the disease. Inhalation is the application of this principle to the treatment of the lungs, for it gives us direct access to those intricate air cells and tubes which lie out of reach of every other means of administering medicines. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is so simple, that it can be employed by the youngest infant or feeblest invalid. It does not derange the stomach, comfort or business of the patient.

One dose after eating is sufficient to relieve the stomach and prevent the stomach and

comfort or business of the patient.

Professor Wood's Huir Restorative. - We call the attention of all, old and young, to this won-derful preparation, which turns back to its original color, gray hair-covers the head of the bald with luxuriant growth—removes the dandruff, itching, and all cutaneous eruptions—causes a centinual flow of the natural fluids; and hence, if used as a regular dressing for the hair will preserve its color, and keep dressing for the hair will preserve its cool, it is natural it from falling to extreme old age, in all its natural beauty. We call then upon the bald, the grey, or beauty. We call then upon the bald, the grey, or it from falling to extreme oid age, in all its natural beauty. We call then upon the bald, the grey, or diseased in scalp, to use it; and surely the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its praise is doon the tongue
