Many men of many minds— Many Shoes of many kinds, From sizes one to number nine, Allowing some for heel behind.

Boots for men and women too, Some high; some low; some old and new, With shanghai tops and painted heels To make him high who lowly feels. If prices do not suit your mind

Just take a little cheaper kind— But when you buy cheap shoes, beware, For cheapest shoes are first to tear. If fruits and pickles well put up; Fruits preserved, or nice eatup, Be bothering any one to taste, To Ferguson's be sure to haste.

Tobacco and cigars are there, Of qualities and kinds quite rare, To please the taste of every one

And make the boys oppear full grown. We take all kinds of trade for goods, E'en wagons full from out the woods All kinds of produce and of grain, Will be received and sold again.

Now call and see this Store of shoes, Of pickles and preserves for use,
But when you call just bring along,
What is the object of our song.

Hard Times Relief.

An old estate has been recently opened for sale, and the first division of 10,000 acres divided up into farm of twenty acres and upwards. The soil is of the best quality for the production of fruits, grains &c. The price is \$15 to \$20 per acres, payable in easy quarterly yearly instalments, with a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrions man to buy a farm. It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy-five houses have been built in four months. Practical farmers and business men from the length and breadth of the Union are built in four months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy leam, with a claw bottom and retentive of manures. It is free of WILLIAM HARTLEY

Cabinet maker's tools and findings, aware that the carliest and best fruits and vegeta-bles come from New Jersey, which are annually ex-ported to the amount of millions of dollars. The land, besides being accessible in every way for fer-tillizers, has an abundant supply of the best quality of muck manure. Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brick-yards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emi-gration, this is the best course to pursue in order to gration, this is the best course to pursue in order to get a place to live in at first. Carpenters and builders are on hand to put up houses on the best terms.
In settling here the emigrant has many advantages. He is within a few hours' ride of the great cities in the Middle States and New England; he is near his oid friends and associatious; he is in a set-tled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and hardy in far off regions away from home and friends. Besides, he has a mild climate and an open winter. There are three trains daily to Philadelphia, and to all those who improve county daily to Philadelphia, and to all those who improve the radiroad company gives a free ticket. The reader will at once be struck with the advantages here presented, and ask himself why the property basont been taken up before. The trason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine before purchasing. This all are expected to do—They will see the land under cultivation; they will meet persons, no doubt, from their own neighborhood; they will witness the improvements, and can judge of the character of the population. Persons should come prepared to purchase, as many are locating, and locations are not held on refusal. HAVE just opened their new Store in "Anderson's Row" of buildings, nearly opposite the Gazette Office. Their stock of Boots and Shoes for men, wo-

men and children, is certainly the best and cheapest that has ever been brought to Bedford, for three reasons. First :- On account of the pressure of the

times, they have been laid in at 30 cents on the dollar less than what was paid last year for the Second :- They were bought for CASH, and

the usual discounts made.

Third :-- They were bought in much larger quantities than dry goods merchants buy them, and consequently were bought much lower. If this is doubted, the evidence is on the stand at the counter.

Scrofula, or King's Evil,

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fattal by this taint in the system. Most of the consumption which decimates the human family dered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamina-

has its origin directly in this scrofulous contamina-tion; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

supply in AYER'S Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SEIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OF ENERGIPS, PROFESS, RIGGERS, and Sein Diseases, St. Anthony's Fire, Robe, or Erysiplias, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Deblitty, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

taminated constitutions. Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIO. are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonisted to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of

once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanae, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Hearthurn, Headache, arising from disordered stomach, Nausca, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup. Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate discases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
