Hammonton Lands—NEW ENGLAND SETTLEMENT—FREE OPPORTUNITY—TO ALL WANTING FARMS—

A healthy place, twenty miles from Philadelphia, on the Camden and Atlantic railroad, New Jersey. An old estate has been recently opened for sale, and the first division of 10,000 acres divided up into farm of twenty acres and upwards. The soil is of the best quality for the production of fruits, grains and other crops. The price is \$15 to \$20 per acre, payable in easy quarterly yearly instalments, with a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy-five houses have been built in four months. Practical farmers and business men from the North and South of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy loam, with a few heavy rocks, and is very fertile. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops and adapted to the raising of the most valuable and profitable crops. Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brick-yards being started on the ground. A person can put up a frame treatment for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order to get a place to live in at first. Carpenters and builders are on hand to put up houses on the best terms. In settling here the emigrant has many advantages. He is within a few hours' ride of the great cities in the Middle States, and is in a healthy place, near his old friends and associations; he is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the uncertainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and hardy in far off regions away from home and friends. Besides, he has a mild climate and an open winter. There are three trains daily to Philadelphia, and to all those who improve the railroad company gives a free ticket. The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it is never thrown in the market, unless these statements were correct, no one would be invited to examine before purchase. This all are expected to do. They will see the land under cultivation; they will meet persons, no doubt, from their own neighborhood; they will witness the improvements, and can judge of the character of the population. Persons should come prepared to purchase, as many are locating and locations are not held on refusal. The Hammonton Farmer, a monthly Literary and Agricultural sheet, containing full information of Hammonton, will be sent to each inquirer, and can be obtained at 25 cents per annum. This information will be given, clear of all incumbrances, when purchase money is paid. Boats to the land—Leave Vaux street wharf, Philadelphia, for Hammonton by railroad at 7 1/2, A. M. and 3 1/2, P. M.; when they require for Mr. Byrnes. Boarding conveniences will be found. Letters and applications can be addressed to N. B. CLEVELAND, 392 South Fifth Street below Walnut, Philadelphia. Maps and information cheerfully furnished. (Aug. 27, '58.)

SHOE STORE!

Ferguson & Co., HAVE just opened their new Store in "Anderson's Row" of buildings, nearly opposite the Gazette Office.

Their stock of Boots and Shoes for men, women and children, is certainly the best and cheapest that has ever been brought to Bedford, for three reasons. Ayer's Sarsaparilla.

A compound remedy, in which we have labored to produce the most effectual alternative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must exist. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must exist. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must exist.

This compound will be found a great promoter of health, when taken in the spring, to expel the four humors which feeter in the blood at that season of the year. By the timely exhibition of this many rankling disorders are expelled. Multitudes can, by the aid of this compound, free themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alternative medicine. Cleanse out the blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even in no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this purgation of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtues that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the honest consumer is so disappointed, he cannot be satisfied with the name of Sarsaparilla, until he has found a more authentic and more synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it, because the virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Prepared by DR. J. C. AYER & CO. LOWELL, MASS. Price, 51 per Bottle; Six Bottles for \$5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it is known, or believing it has been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all that has ever been found to do.
