The Lord's Prayer Illustrated.

Our Father -

By right of creation, By bountiful provision, By gracious adoption:

Who art in Heaven ---

The throne of thy glory, The portion of thy children, The temple of thy angels.

Hallowed be thy name-

By the thoughts of our hearts, By the words of our lips, By the works of our hands.

Thy Kingdom come-Of Providence to defend us-Of grace to refine us, Of glory to crown us.

Thy will be done on earth as it is in Heaven-Toward us without resistance, By us without compulsion, niversally without exception, Eternally without declension.

Give us this day our daily bread-Of necessity for our bodies, Of eternal life for our souls.

And forgive us our trespasses-Against the commands of thy law. Against the grace of thy Gospel.

As we forgive them that trespass against us-By defaming our characters, By embezzling our property, By abusing our persons.

And lead us not into temptation, but deliver us

Of overwhelming afflictions, Of worldly enticements, Of Satau's devices, Of error's seductions, Of sinful affections.

For thine is the kingdom, the power and the glory forever-

Thy kingdom governs all, Thy power subdues all, Thy glory is above all.

As it is in thy purpose, So it is in thy promises, So be it in our prayers, So it shall be to thy praise

Spring, fell and bew the timber now, unless it has been on hand seasoning the past year which is preferable. Replace the nails which the frost or high winds may have started, and batten up cracks through which cold and snow enter the stable.

Cattle-Attend carefully to feeding now-Remember, "well wintered is half summered." Give roots, carrots if you have them, with hay. Do not let the straw cutter rust for want of use. Make feeding racks for the yard. Cellars-Look out for frost; examine and sort

fruit and vegetables if decaying; send rats and mice on a long journey; and bottle cider for Summer use.

Drains-Examine frequently during thaws, and keep open. Much grain is lost by neglecting drain furrows in Winter.

Fencing-Continue to prepare material .-Work out posts and raits under cover on stormy days. Put old fences in order, and build new ones as soon as frost will allow.

Grain-Thresh out any remaining on hand, and guard bins from rats and mice. Keep an eye to the market reports, and improve a good opportunity for selling.

Horses and Mules—Keep them sharp-shod.—

Give roots with feed as directed last month .-Cut feed is most economical. Let them be well blanketed when not in use, and have plenty of bedding at night, also litter under them to ab-

sorb moisture when standing.

Hogs-Feed liberally, with warm, cooked food, with which mix charcoal and salt occasionally, especially for breeding sows. Keep pens well littered with leaves or short straw, to

increase the stock of manure. Ice Houses-Secure a good supply of ice if not already done, and see that the house is in good condition for preserving.

Manures-Follow up the manufacturing as directed last month. The deeper the muck is saturated with manure droppings and ammonia, the higher the corn in the crib next Fall. It may be carted to the fields for use, during the latter part of the month; it so cover the heaps with soil or muck to absorb escaping ammonia Better leave it under cover if practicable, till wanted to spread.

Scrofula, or King's Evil,

SCIOIUIA, Or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impurair, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the futhers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tuber.

blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of dered fatal by this taint in the system. dered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleans it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OF EXISTRELAS, PUNTLES, PUSTULES, BLOGGERS. and Sein Diseases, St. Anthony's Fire, Rose, or Exystpelas, Pinfles, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphillite and Mercurial Diseases, Dropst, Dyspersia, Debility, and, indeed, all Complains arising from Vitiated on Impure Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costierness, Hearthurn, Headache,

arising from disordered stomach, Nauseu, Indigestim, Puin in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

vanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
