A BLACK REPUBLICAN PILL FOR THE ner of the Union. TARIFF MEN.

We have before us a copy of the New York Tribune, of Dec. 16, 1858, in which Mr. GREE-LEY the great champion of Black Republicanism, talks as follows concerning the last election in this State:

"There (in Pennsylvania) the Opposition "simple, and a very earnest one. The tariff "question was a powerful element in the can-"vass; but nobody pretended that Mr. Reau

Read was in favor of Protection and Judge Porter opposed to it. And yet this Black Republican high priest tells us otherwise, and that he was successful before the people.-What a sweet pill this must be for the men to the straight-out Americans who were duped notions! Greeley is a good liar, but always makes a bad witness against his own party.

BLACK REPUBLICANISM VS. FREE OR-EGON.

Another state has been added to our glorious confederacy. Another star has risen in the firmament of the Union. Free Oregon shines resplendent in the bright constellation of our ic progression has given this new lustre to our country's glory. The halting, negative, conthe patriotism of good men and true dispelled Democratic party. The Times even thinks the gathering cloud. Thus it is that Democratic principles are vindicated from the foul charges of the Opposition, and thus are the hypoof Congress, with a free constitution in her manner of its adoption, and yet the Black Re- and which can not be overthrown in the prespublican Congressmen, almost to a man, voted ent feeble and tentative condition of commerce, denounce the Democrats as slavery propagan-Union, whose admission they knew would be turbing the currents of private enterprise." a splendid triumph for the white laborer of the North! This should more conspicuous than it is if the party was in convince every thinking man, that as a political organization our Black Republican opponents Patriot & Union. are not only usincere in their professions concerning free institutions, but that they are even the interests of their party. Let the vote on Oregon be remembered.

OUR COMMON SCHOOLS.

MESSES EDITORS : * I am now nearly through visiting the schools for the present term. I desire to say a few things in regard to them. If you give me a little room in your paper, I will furnish a few short articles on the subject. Perhaps they will be interesting to many of your readers.

I do not wish to trouble you nor any son else, with an extended detail of statistics, are one hundred and seventy nine schools in the county at this time. Two hundred and the term. Two hundred and eight certificates were issued; many of which were of the lower grades. Some of these were employed from necessity and not from choice. In some districts better teachers could not be obtained for the wages offered, and in others, betterones That before Mr. Buchanan's election, the could not be had at all. The standard of the teachers' qualifications was raised a little higher than it was last year, requiring a little more to get as good certificate. The schools, throughout the county, wherever I was able to visit them, have been doing better this term than the last, with only two or three exceptions The signs of general improvement are beginning to be seen in many places. Teacherss institutes are regularly held in most of the districts for purposes of mutual improvement a disposition to build better school houses and employ better teachers, is showing itself, and in many places there is a more general waking up to the claims and responsibilities of the sub-

One of the true principles of political econo-

my is, that every state should educate its own children, or at least see that they are educated. This is nothing more than carrying out the principle that calls for every government to establish laws for the protection of life and property and the punishment of crime. It is well occupied, is worth much more than' any jail or any code of penal laws, as a preventive of vice and wickedness. The legislation of our State has hitherto acknowledged this principle and has acted upon it, especially so during the last twenty five years. Hence Educational means fully able to accomplish the purposes for which they are designed, have been liberally provided. The question then forces itself Are the Common Schools of upon the mind: ur county, as they are now organized, accomplishing the purposes of their institution that is, do they give thorough elementary instruction and proper moral training to the children of the people? I am sorry to say that this question cannot be answered fully and satisfacto .ly in the affirmative It is true that much, very much has been accomplished and the standard of the schools is higher now than at any time in their previous history; and as a general thing, they were better taught, and more thorough instruction was given during the past session than ever before, and, though more interest was taken in their success by direc ors and parents than formerly; and though it is acknowledged that the interest is increasing and the tendency is upwards; yet all this does not bring us up to what we ought to be. We are so far back! There is room for great improvements. Much must be done bemany persons who object to it in its present form and would object to it in any other Those are not wanting who object even

On Saturday the 13th inst., the girl went to church, accompanied only by two little brothers, (other members of the family being kept at home by the ilness of her grandfather, Darius Tingley, a notice of whose death appears elsewere) and instead of returning home, went with Whiting and his wife to their house, when they called in a clergyman to perform the marriage service. Of course none would be a party to so black a crime, whereupon the parties went to New Milford and other places in search of some being who had not decency enough to deter him from lending himself to so degrading an act, and on the next day a Justice of the Peace at Kirkwood, N. Y., consented to give legal sanction to an alliance forbidden alike by the laws of God and man.

When they returned to Harford, and it became known that they were married, the town was thrown into great excitement, and various demonstrations were made, expressive of the ndignation and disgust of the citizens. On Friday night they came to Montrose, to avoid, it is said, the just indignation of the people at home, and a double bed-room was engaged by Whiting, at Searle's hotel, where the four (Whiting and lady and Sophia and lady) spent the night before it was known to Mr. Searle that there was a darkie in the gang. The next day, Whiting and his wife, the negro, and Robert Alexander, who also accompanied them on their bridal tour, were arrested by the Sheriff and held to bail on a charge of conspiracy, at the instigation of the girl's father. the affair will be fully investigated. The Whitings were so anxious to keep the matter secret until a marriage could be effected that they obtained a pledge from the clergyman at Harford (Rev. W. W. Welsh of M. E. Church)that in case he did not marry the parties, he would not reveal their plot, and he, thinking they could not succeed in their disign, did not make

In justice to Mr. Tingley, his family and numerous relatives, all of whom occupy a high standing in this community, we must add that they are not chargeeble with any wrong in the affair. In her father's family the girl has been taught no doctrine tending to so degrading a result. The only explanation of the matter is that ner mind was poisoned by the influence of those engaged in bringing about the marriage, who, it seems, are too fully enamored of the modern doctrine of "Negro Equality." Were none but themselves affected by the result of their plotting, it would, comparatively, make little should be ruined, and a family and large circle of relatives have such a disgrace fastened upon them, is too great an outrage to be quietly
