### Nycum's improved CAST-IRON CARRIAGE HUB.

MHE undersigned believes that he has invented a cast iron carriage hub which far excels all others now in use, for strength, neatness and durability and that it only needs to be examined, and its merits tested; to secure its universal approval and adoption. Indeed it is no longer an experiment, it having been effectually tried by the best judges in our country, and pronounced one of the

Greatest Improvements of the Age! Several vehicles have been in use over two years with the Improved Hub attached, and the wheels are still as perfect as when they left the shop, the unavoidable wear excepted.
