COMPOUNDED ENTIRELY FROM GUMS. Is one of the best purgative and liver medicines now before the public, that acts as a Catharter, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver re-medy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effect-ually, without any of the painful feelings exper-enced in the operations of most Catharties. This is the only Cast Iron Hub ever invented sui-table for light wheels. This imprevement is of such a nature that one or more spokes may be taken out changed or replaced without disturbing the other portion of the wheel. Where a wood hub is used, if a spoke happens to be-come, broken, it is necessary to cut the tire and se-parate the felloes, to get at the damaged part. The wheel must be then recomposed, the tire rewelded and reset. All this involves a considerable expense and loss of time. In the present Improvement the inner ends of the spokes are secared in an Iron Hub, which consists mainly of two shells fastened together with screws. I would, therefore, recommend its use to every one desirous of having a fine color and texture to hair. Respectfully yours, WILSON KING.
