## BLACK REPUBLICANISM PRO-SLAVERY.

The New York Tribune, it must be acknowledged, is one of the principal organs of Thus discourseth the News : the Black Republican party. That journal is at present studiously and actively laboring to the North and the Know-Nothing Opposition Tribune and its Black Republican followers, is a professed opposition to slavery. Therefore, is it not a little odd that we should find Mr. Greeley courting an alliance with such rabid seeker in his hunt after the public plunder— can lie at the foundation of such a coalition. of their enemies, will muster all their forces, and taking up a candidate who has not become Will clear the presidential election, Republican Massachusetts has not been deterred from It is this subjection to the fundamental law of Mr. Greeley and his Anti-slavery compeers odious to the people, they will elect him. are either trying to bury their Abolitionism for the sake of ensuring themselves the spoils, or they are facing to the right-about in their po-litical opinions. The truth about the matter, is simply that they want success—they want the loaves and fishes of office. Their party is simply that they want success—they want the loaves and fishes of office. Their party bas been an expensive speculation and they must make some money out of it, or it will be a losing one into the bargain. Hence they are willing to throw principle to the dogs, and to let the "poer negroes"—even those that Pierce Butler sold—rattle, their chains uncared for.

THE AMALGAMATION PARTY. Since the Abolition-Republican party came

nto existence, instances of white and black intermarriage have been multiplied to an alarmng extent. Almost every newspaper, from Maine to Kansas, publishes accounts of the black persons, has been passed. The opposers of the bill were all "Republicans," and it would have failed, had it not been for the Democrats, of whom there were just enough to pass

it. In Pennsylvania a bill of the same nature, as our readers are aware, was introduced into

The free States have nearly two-thirds of the nembers of the popular branch of Congress ; cement together the Black Republican party of and nine-tenths of the people who will go into new Territories, have no interest in slavery, and are opposed to its extension. There are opposed to its extension of slave party of the South, prenarding to the great increase receiver, ho danger of the extension of slave presidential battle in 1860. Suppose the more rational part of the community were pro-slavery men as those who have the control the tricksters who direct their movements, what the Legislature in the following words :-pro-slavery men as those who have the control of the Opposition in the South? Is it not a fittle singular that the *Tribune*, which has been beloing forth its thanders against slavery in interminable volleys, should now be found in interminable volleys, should now be found check by jowl with the very fiercest and most uncompromising advocates of the "pieculiar in-stitution ?" One would be astonished to see oil and water mix; not less astonishing is it that the rampant opponents of shavery—the jet black Abolitionists of the North—are ready and anxious to affiliate with their policical antipodes, the pro-slavery men of the South. Can such an amalgamation have any unity of purpose?
