DIED:

year of her age.

Afflictive providence, indeed ! this young lady, just in the sun-rise of her life, was seized by an incurable disease of the lungs, which spread a cloud over her morning sky, growing darker and darker still, till the night of death set in. Her protracted sickness was borne with entire resignation to the will of God .----Though her friends had given up all hopes of her recovery, yet her departure was not looked for at the time ; she gave only a few moments notice, and then expired whilst sitting upon a chair. Just ten days previous to her decease, she was received into full communion with the church militant, by the solemn rite of confirmation ; but now, with her sainted mother, we doubt not, she enjoys the privileges of the Church in Heaven.

HOSTETTER'S

STOMACH BITTERS.

It is a fact that, at some period, every mem-ber of the human family is subject to disease or disturbance of the bodily functions; but,

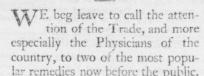

ber of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true cornse to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has in-troduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfac-tion to all who have used it. The Bitters operate powerfully upon the stometh, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple pro-cess of strengthening nature, cuable the sys-tem to triumph over disease. Tor the cure of Dyspepsia, Tudigestion, Nan-tee, Flatulency, Loss of Appetite, erany Bilions Complaints, arising trom a morb.'d inaction of the Stomach or Howels, producing, Cramps, Dysentery, Colle, Cholera Morous, &..., these Bitters have no equal.

Dysentery, Colic, Cholera Morbus, &.a., these Bitters have no equal. Distributed, dysentery or flux, so generally con-tracted by new settlers, and caused princh ally by the change of water and diet, will be specifily regulated by a brief use of this preparatio. Uyspepsia, a discase which is probably more prevalent, in all its various forms, than any other, and the enuse of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infal-lible? especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. N'Lane's Celebrated Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE. For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS, For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of

FEVER AND AGUE, preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. then why not use an article known to be infal-lible? All nations have their Bitters, as a pre-ventive of disease and strengthener of the sys-tem in general; and anong them all there is not to be found a more healthy people than the Germans, from whom this preparation ema-nated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of modical science. FRYER AND AGE.—This trying and provek-ing disease, which fixes its releates grasp on the body of man, reducing him to a mere sha-dow in a short time, and rendering him phy-sically and mentally uscless, can be driven from the body by the use of HOSTETTER'S RENAWYED DITTERS. Further, none of the attracted diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the painte, and render un-necessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is re-moved as speedily as is consistent with the pro-duction of a thorough and permanent cure. *For Persons in Advanced Lears*, who are enflering from an enfectived Lears, who are enflering from an enfectived Lears, who are enforming to the appreciated.
