NEW AGRICULTURAL SETTLEMENT. TO ALL WANTING FARMS,

RARE OPPORTUNITY IN A DELIGHTFUL AN. HEALTHY CLIMATE 25 MILES SOUTH-EAST OF PHILADELPHIA, ON THE CAM-DEN AND ATLANTIC RAILROAD,

DEN AND ATLANTIC RAILROAD,

NEW JERSEY.

An old estate coasisting of several thousand of acres of productive soil has been divided into Farms of verious sizes to suit the purchaser. A population of some Fifteen Hundred, from various parts of the middle States and New England bave settled there the past year, improved their places, and raised excellent crope. The price of the land is at the low sum of from 815 to \$20 per acre, the soil of the best quality for the production of Wheat. Clover, Corn, Peaches, Grapes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmet. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been, that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vinyards and peach orchards, planted, and a forty vinyards and peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

as the reader may perceive from its location, is the BEST IN THE UNION.

In locating here, the settler has many advantages In locating bere, the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle country where every improvement of comfort and civilization is at hand.—
He can buy every article be waits at the cheapest price, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, divine service, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown. The result of the change npon those from the north, has generally been to restore them to an excellent state of health.

the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place; good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be included.
