An old estate consisting of several thousand of acres of productive soil has been divided into Farms of various sizes to sait the purchaser. A population of some Fifteen Hundred, from various parts of the middle States and New England have settled there the past year, improved their places, and raised excellent crope. The price of the land is at the low sum of from \$15 to \$20 per acre, the soil of the best quality for the production ol Wheat. Clover, Corn, Peaches, Grayes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land,, which is only sold for actual improvement. The result has been, that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vinyards and peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,

as the reader may perceive from its location, is the BEST IN THE UNION,

The result of the cheage upon those from the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to can be obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place; good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be in-

MY MOTHER'S GRAVE.

BY GEORGE D. PRENTICE.

The trembling dew drops fall Save me is blest.

Mother! I love thy grave!

Its bright leaves to the coming tempest bow,

To leave untasted, life's dark, bitter streams,

And must I linger here, To stain the plumage of my sinless years, And mourn the hopes to childhood dear, With bitter tears?

Ay must I linger here, A lonely branch upon a blasted tree, Whose frail leaf, grown untimely sere, Went down with thee?

Oft from life's withered bower,

In stil communion with the past, I turn And muse upon the only flower In memory's urn. And when the evening pale Bows like a mourner on the dim blue wave,

I stray to hear the night winds wail Around thy grave. Where is thy spirit flown? I gaze above—thy look is imaged there;
I listen, and thy gentle tone

Is on the air.

O come-while here I press, My brow upon thy grave—and in those mild And thrilling tones of tenderness,

Yes, bless thy weeping child, And o'er thy urn, religion's holiest shrine-Oh, give thy spirit pure and undefiled, To blend with mine.
