In the foregoing table, which is put down at \$1, rye, corn and buckwheat 50 cts, beef 44, pork 5, lard 10, tallow 10, and garden vegetable, at a fair average price. The column containing expenses of Poor House, over and above proceeds of mill and farm as paid out, exhibits \$2,103.74; the last column, containing taxes collected each year, exhibits an average of \$3,180.39, showing a difference of \$1,076.65; this difference is accounted for in the consumption of beef, pork, garden vegetables &c. not put down in the column of expenses, not being paid out, but counted in as resources of farm and garden in order to ascertain what the property has been paying as a separate and distinct property from the Poor House. This difference added to the cost of each pauper per head as above, makes the average cost of each one per week, for the ten last years, \$1.71; this concluded all expenses of Poor House, embracing Steward's salary, his family, Physician's salary, Directors, Clerks, &c. From a thorough and rigid investigation of every Treasurer's and Steward's report, which involved an examination of every single item in each one for ten years, nothing was detected but a fair and full statement of income and outlay. Some bills were allowed occasionally which looked extravagant, but they would not have been paid without checks being granted by the Directors. There is some room for economizing; but the secret of so much tax and expense, is the unavoidable cost of a very large family of say 60 people (including Steward and family) to be fed and clothed all the time; following in its train, Physician's bills, medicines, burial expenses, Clerks, Directors, Justices, making out warrants, constable's fees in bringing paupers &c. &c. These latter things make up a large bill of items each year, which are not seen, but felt.

The mill and farm taken together exhibit an astonishing result. No real estate property in the county pays like it. The mill is a source of steady increase, yielding as much as most farms alone, after paying all its expenses, what the farm and gardens, are still more interesting in their results.

It is not a grain growing farm; but with a large meadow, and its yield of corn, with work done principally by the Steward and paupers, the net increase is large, and the garden still larger. From 2500 to 3000 heads of cabbage, 2 & 300 doz. cucumbers are the annual yield of the garden, including beets, parsnips, beans &c. in proportion. The best thing about it, is, the work costs nothing, or very little. It is a kind of work, paupers can and will do.

The above table is as near correct as it could be made from the reports. From the mixed manner in which some are made out, it is impossible to get items separated so as to get them exactly under the proper head. It is suggested, hereafter, that for ready information, and a clear exhibit of facts, the Treasurer

And Steward keep their accounts, and make out their report showing the income of the Mill, in one column; the expenses in another, and the same with regard to the farm and Poor House property. They are three separate concerns, and the accounts should be kept so.

The varied amount of expenses in different years is accounted for from the facts that more checks were lifted in some years than others. The first three of the above ten, shows the average cost of paupers small; the next column of receipts by Treasurer explains it in the amount of taxes received, and consequently the small amount paid out.

Too loose a practice has prevailed in allowing exonerations to collectors; a more rigid rule would save the honest, willing tax-payers a large amount.

Collectors, if allowed, get in the habit of putting every body on the "scape list who don't pay just when asked; this practice has become a source of considerable burthen to the tax payers within ten years. Collectors should bear in mind that no man can plead the three hundred dollar law against taxes; and this rule enforced, will leave very few in Bedford county unable to contribute their mite to the support of the Poor.

The yield of 12 1/2 per cent on the investment at original cost, may probably admit of a small deduction; but very little. Under no circumstances could it get below 10. The board of commissioners appointed to sell the property and buy another, &c., are satisfied that such a change would be useless and unwise. The objection to the property being on the turnpike is no objection when it is taken into consideration that the way-faring population must be supported any how; it will not do to let them starve; the poor-house is made for the poor, and the whole people of the county may as well keep them as those who live along the road; the tax-payers along the turnpike have, as it is, more than their share of beggars.

Besides this, if the Institution were eight or ten miles, or three or four miles from town on a farm, a great many way-farers would resort to it at all events; the Physicians would have to ride further, and charge more, the pauper's clothing would have to be hauled and carried to them; the grand jury would have to visit them at a big expense; a Steward and a hand or two would have to be constantly on the go to furnish supplies; the expense of several hands on a farm; a large number of horses and cattle constantly to feed and all the other expenses attending a grain-growing farm with its vast amount of labor, make it in their opinion, highly expedient and proper to keep what they now have rather than venture on untried experiments.

An improvement, however, should be made. A new house ought to be built for the paupers; this can be done without much outlay, and should be so arranged as to have a place or department exclusively for the sick and another place separately for the way-farers. These places properly attended to and cleansed as they should be, will relieve the rest of the paupers from suffering, and the Steward from a great deal of trouble and odium.

It is to be hoped also that the institution will hereafter be kept from all entangling alliances with politics, and that an intelligent good business man may be retained as Steward so long as he behaves himself well. The business must be learned as well as every thing else.

An honest man with some of the people's funds could buy grain, grind it out and supply the whole town of Bedford, in addition to doing the grist work; this should be done; such a use of the property would in a short time greatly relieve the tax-payers.

On a careful examination of the subject, the Commissioners believing they had discretionary power under the act of Assembly and appointment of the Court, respectfully decline carrying out the provisions of said act, under a conviction that the people of the County would not be benefited thereby.

HOSTETTER'S
STOMACH BITTERS.
It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; and, with the aid of a good tonic and the exercise of plain common sense, they may be able to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.
For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.
Diarrhoea, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have the Bitters, as a preventive of disease and strengthening of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.
FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be cured from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.
For *Remedy in Adolescent Years*, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only to be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially when the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system.
Ladies should by all means try this remedy in all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.
CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hostetter's CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.
Prepared and sold by **HOSTETTER & SMITH,** Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

MARK THESE FACTS!
THE TESTIMONY OF THE WHOLE WORLD.

Holloway's Ointment.
Bad Legs, Bad Breasts, Sores and Ulcers.
All descriptions of sores are remedied by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy diseased condition remains underneath to break out with tenfold fury in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation in and about the wound, and to soothe the neighboring parts by rubbing in plenty of the Ointment, as salt is forced into meat.
Diphtheria, Ulcerated Sore Throat, and Scarlet and other Fevers.
Any of the above diseases may be cured [by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part whereas the Ointment will do its work at once.—Whoever tries the ointment in the above manner, for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm.
Piles, Fistulas, Strictures.
The above class of complaints will be removed by nightly fomenting the parts with warm water, and then most effectually rubbing in the Ointment. Persons suffering from these dreadful complaints lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time—two or three times a day; that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. There again bread and water poultices, after the rubbing in of the Ointment, will give service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down.
Indiscretions of Youth;—Sores and Ulcers.
Blotches, as also swellings, can, with certain—be radically cured if the Ointment be used freely and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this Ointment will remove the humor from the system, and leave the patient vigorous and healthy being. It will require time with the use of the Pills to ensure a lasting cure.
Dropsical Swellings, Paralysis and Stiff Joints.
Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in comparatively short space of time, when this Ointment is diligently rubbed into the parts affected, even after every other means have failed. In all such cases, the Pills should be taken according to the printed directions accompanying each box.
Both the Ointments and Pills should be used in the following cases:
Bad Legs, Gout, Pustulas, Bad Breasts, Burns, Glandular Swellings, Bunions, Lumbago, Bites of Mosquitoes and Sand-Flies, Rheumatism, Cocco-bites, Sore Nipples, Chiege-foot, Sore-throats, Chilblains, Skin Diseases, Chapped Hands, Scurvy, Corns (Soft), Sore-heads, Cancri, Tumors, Contracted and Stiff Joints, Ulcers, Elephantiasis, Wounds, Yaws.
CAUTION!—None genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water-mark* in every leaf of the book of directions around each box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.
