A good and useful man has gone over the lark valley. We trust he has arrived at the courts of the upper sanctuary. No obituary, filled with exaggerated virtues, is our purpose. but so prominent a citizen should not pass away without a notice of the event. When the subject of this notice was born, fifty-five years ago near the foot of the Allegheny, schools were scarce, and opportunities for education limited. He acquired enough, however, to enable him in after years, with an extraordinary fund of common sense, and great industry, to cope successfully in his business with professional men, and indeed with all others. His integrity was above suspicion; hence the unbounded confidence reposed in him by his neighbors, and all who knew hun. His business in a legal way,

was so extensive, for a number of years, that he became a safe counsellor. He was also a faithtal trustee. Once Sheriff of the county, and being Administrator, Executor, Trustee, Guarbeing Administrator, Executor, Trustee, Guar-dian, &c., for a great number of people, the writer of this, who knew nim well, and was cognizant of a great many of his fiduciary af-foirs, can say with truth that very few ever foirs, can say with truth that very few ever complained, and none could justly complain, of the management of his trusts. After a life of great industry, he accumulated a good estate.— He has well provided for his family. May they

deserve it. He came to settle his last account. The Register was the Angel of Death, and took the account to the upper court. To say that that account contained no irregularities, would be a libel upon the dead. Where is the account to which exceptions could not be taken ? The Auditor, with the tear of mercy and forgiveness has expunged the errors ; the account has passed on to the Great Judge-the decree is made: "To err is human; to torgive, divine,"-the "To err is human; to torgive, divine,"—the Saviour has passed it, and the account is ac-cepted. Can it be true, another's gone By death's unruly hand ? Ah yes it is, and well we know She's in a better land.

Though her career was long on earth, The time to us was short ; For them we love and owe so much, We never want to part.

No more we'll see her calm, sweet face, Until that day shall come, When all will rise in garments white, As when laid in the tomb.

But with what patience did she wait Her spirit to take flight, And see her God, the loved of all, Push back the portal gate.

And what a lesson 'tis to see The christian so resigned To the will of him who suffered death For her and all mankind.

She suffered not, till death drew near The time was short and blessed ; Her faculties she still retained Till her spirit was at rest.

But oh ! one consolation's left Examples rich to follow. Which you, dear Grandma, did possess Whilst in this world of sorrow.

And when she woke, from slumbers mild That seemed by angels given, she only asked the time to come That she might enter heaven

HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period, every mem ber of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure perman-nt health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has in-troduced to this country a preparation bearing his name, which is not a new medicine, but one has name, which is not a new meaning, but one that has been tried for years, giving satisfac-tion to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring then to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the sys-

For the cure of Dyspepsia, Indigestion, Nausea, Plathlency, Loss of Appetite, or any Billous Complaints, arising from a merbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Pittore have no could

Dysentery, Cohe, Cholera Morous, &c., tacse Bitters have no equal. Diarrheea, dysentery or flux, so generally con-tracted by new settlers, and crused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more secondaria in all its variant forms forms than any prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infal-lible? All nations have their Bitters, as a prewentive of disease and strengthener of the sys-tem in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation ema-nated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVEN AND AGUE.—This trying and provok-ing disease, which fixes its releated strying and provok-ing disease, which fixes its releated strying and provok-ing disease, which fixes its releated strying and dow in a short time, and rendering him phy-sically and mentally useless, can be driven from the body by the use of HOSTETTER'S. DEENOWED BITTERS.—Buther promagithe from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render un-necessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is re-moved as speedily as is consistent with the pro-duction of a thorough and permanent cure. For Persons in Advanced Years, who are

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indis-pensable, especially where the mother's nour-islament is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart Indicater's stomach bitter, is needed to impact the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will mmend their use in all cases of weakness. CAUTION .--- We caution the public against using

any of the many imitations or counterfeits, but ask for HoSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

## Holloway's Ointment.

-201 -----Bad Legs, Bad Breasts, Sores and Ulcers.

All description of sores are remediable by the proper and dilgent use of this inestimable prepara tion. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy diseased condition remains underneath to break out with tenfold fury in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation in and about the wound, and to soothe the neighboring parts by rubbing in plenty of the Oint-ment, as salt is forced into meat.

Diptheria, Illcerated Sore Throat, and Scarlet and other Fevers.

Any of the above diseases may be cureitby well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part whereas the Ointment will do its work at once. Whoever tries the angeant in the above manner, fo the diseases named, or any similar disorders affec ting the chest and throat, will find themselves re lieved as by a charm.

Piles, Fistulas, Strictures.

Piles, Fistulas, Strictures. The above class of complaints will be removed by nightly fomenting the parts with warm water, and then most effectually rubbing in the Ointment. Persons suffering from these direful complaints lose not a moment in arresting their progress. It should be understood that it is not sufficient mere-ly to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be ta ken into the system, whence it will remove any hidden sore or wound as effectually as though pal-pable to the eye. There again bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only sure treatment do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down.

Indiscretions of Youth ;-Sores and Ulcers. Blotches, as also swellings, can, with certain-be radically cured if the Ointment be used freely and the Pills be taken night and morning as recom nended in the printed instructions. When treated in any other way they only dry up in one place to break out in inother; whereas this Ointment will remove the humour from the system, and leave the patient a vigorous and healthy being. It will re quire time with the use of the Pills to ensure a last ing cure.

Dropsical Swellings, Paralysis and Sliff Joints.

Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such dis-eases, will yield in comparatively short space of time, when this Ointment is diligently rubbed into the parts affected, even after every other means have failed. In all serious maladies the Pills should be taken according to the purched directions every be taken according to the printed directions accom panying each box.
