DR MOTT'S CHALYBEATE RATIVE PILLS % IRON

A N APERIENT AND STOMACHIC PREPARA-

preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

complaints, vil: In Debility, Nervous Affections, Emacration, Dys-pepsia, Constipation, Diarrhæu, Dysentery, Incipient Consumption, Serofulous Taberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaint, Chronic Headaches, Rheumatism, Intermittent Feve Pumples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic com-plaints, one trial of this restorative has proved successful to an extent which no description nor writ-ten attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protrac-ted travel in a distant land. Some very sig-nal instances of this kind are attested of female sufferers, emacuated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of pervous and dyspeptic aversion to air and exercise for which the physician has no

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of hon must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently regularly aperieni, even in the most obstinate cases of costiveness, without ever being a gastric purgative,

or inflicting a disagreeable sensation.
It is this latter property, among others, which makes it so remarkably effectual and permanent a cemedy for Piles, upon which it also appears to ex-ert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspersia, innumerable as are its causes, a single box of these Chalybeate Pills has often suffi-

ced for the most habitual cases. In unchecked Diarrhoa, even when advanced to Dystedery, confirmed, emaciating and apparently malignant, the effects have been equal decisive and

malignant, the effects have been equal decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, inseveral very gratifying and interesting instances.

In Serofulous Tuberculosis, this medicated iron has had far more the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females, cannot be too confident.

of their well-known liabilities.

The attention of females cannot be too confidently invited to this re medy and restorative, in the cases peculiarly affecting them.

In Rhoumatism, both chronic and inflammatory, in the latter, however, more decidedly, it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermettent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.
