**ROHRER'S PRACTICAL CALCULATOR.**  
A Book of Plain Rules and Calculations for Business Operation. By Martin M. Rohrer, Practical Surveyor and Conveyancer. New Edition, Published by J. B. Lippincott & Co., Philadelphia.

This work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical, such as arise every day in the common pursuits of Business. It has already passed through a number of Editions in rapid succession, and is pronounced by all classes of business men to be the handiest book of reference, pertaining to calculations that has ever been published.

Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in readily solving it; in a word, the general arrangement of the Calculator is so simple, that any one who knows how to add, subtract, multiply, or divide, can easily solve any ordinary example that arises in business, or arrive at the result of any estimate required.

The chief aim of the author has been to exchew theory and philosophy in figures, aiming only at facts and simplicity, believing that business men are not about spending time in discussing the philosophy of rules or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The calculator differs in this respect from all Arithmetics of the day, and kindred works—it is a key to practical business calculations—it is, in the hands of the business man, what the key to mathematical works is in the hands of the teacher in the school-room—it facilitates time and insures correctness.

**THE WORK TREATS OF THE**  
Measurement of Land, of Lumber, of Brick and Brick Work, of Stone and Stone Work, of Grain and Grain Bins, of Coal and Coal Bins, of Wood, of Solids, of Liquids, of Circular, of Square, or Irregular Vessels, of Cisterns and Vats, of Roofing, of Plasterers', Painters', Glaziers', Pavers', Plumbers', Paper Hangers', and Upholsters', Work. It treats of Currency and of Foreign and Domestic Exchange, of the Decimal System, of Reduction and its extended application to Business, of Simple and compound Interest, and of the entire application to Business transactions, with the laws and usages governing and regulating the same, together with numerous Commercial Forms—of Legal Tender, of Partial Payments on Notes, of Banking and Bank Discount, of Equations of Payments, and Partners' Accounts, of Simple and Compound Interest, of Weights and Measures, of Square and Cubic Measure, of the Square Root and its application to Business, of Surfaces, of Excavation, and of many other important practical matters not within the scope of an advertisement to mention.

Mailed (post paid) to any part of the United States upon receipt of the money. Price of a single Copy, in Cloth, 60 Cents, or two Copies for \$1.00. Bound in Pocket-book form, Morocco, \$1.00 per copy.
