

FARM WORK FOR DECEMBER, 1860.

FARM.

The main work of the month will be manufacturing, rather than cultivating. The stores of hay and grain are to be worked over into beef, mutton, pork ann manure. Practical year, on favorable terms. skill is needed in these operations as much as in plowing, planting and harvesting. The best modes should be studied and the most approved apparatus provided.

It is well at the close of the year to balance all books of account with the farm and with inbe, but at any rate, to know precisely how matters stand.

FARMER'S BOYS.

In the wide world there is no more important thing than farmer's boy's. They are not so important for what they are as for what they | th an ever offered before. All kinds of will be. At present they are of but little consequence too often. But farmer's boys always have seen and we presume always will be the material out of which the noblest men are made They have health and strength; they nave IDISSOLUTION bone and muscle; they have heart and will; they have nerve and patience; they have ambition and endurance, and these are the material that make men. No buckrams and broadcloth and patent leather and beaver-fur, and kid-gloves and watch seals, are the materials of forded. which men are made. It takes better stuff to make a man. It is not fat and flesh and swagger and self-conceit; nor yet smartness, nor flip-PRODUCE SYSTEM. He will do business on the pancy, nor foppery nor fastness. Farmer's boys ought to keep clear of all these idle toolish things. They should be employed with nobler objects. They have yet to be men of the clearer grit, honest, intelligent, industrious, ambitious men, who shall love their country and their kind. With the means they possess how easy for them to be in fact the first class men.
