The stomach not digost the food perfectly. The liver ceases to clea sufficiency of bile. The action of the heart is kened, and so the circulation is feeble. The lungs once clogged with the poisonous matter; hence, as the sand, all from a slight impurity at the fountained, for instance, in a pure spring, from which ran a riveict, in a few minutes the whole course of the sun becomes disturbed and discolored. As quickly simpure blood fly to every part, and leave its stigned, all the passages become obstructed, and unless obstruction is removed, the lump of life soon dies out, these pills not only purify the blood, but regenerate all ascretions of the body; they are, therefore, unrivailed.

Oakland, Ind., 6th June, 1869.

J. C. Ayer & Co. Gents: I feel it my duty to acknowledge what your Sarsparilla has done for me. Having inherited a Scrofuloue infection, I have suffered from it in various ways for years. Sometimes it burst out in Ukeers on my hands and armé: sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the discase has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully.

Leucorrhees or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. E. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrofnlous diathesis. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala, writes, "A dangerous occirion tumor on one of the females in my family, which had defied all the remedies we could employ, has at longth been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

Syphilis and Mercurial Disease.

New Orleans, 25th August, 1859.

Dr. J. C. Ater. Sir, I cheerfully comply with the request of your agent, and report to you some of the effects. I have caused with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Venerod and Mercurial Disease. One of my patients had Syphillite ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some dissignation to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered exeruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

sk attacked. I think it a wonderful medicine. 3, FREAM, Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an offection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. My beloved peator, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young agair. The best that can be said of you is not half good enough."

A great variety of cases have been reported to as where cares of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish graffs to all who call for them. furnish gratis to all who call for them.

Dyspepsta, Heart Discase, Fits, Epilepsy, Mehncholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be apposed beroud its reach. Such a remedy has long been required by the nocessities of the people, and we are confident that this will do for them all that medicine can do.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is uscless here to publish the evidence of its virtues. Its univalled excellence for coughs and colets, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, boo, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

A NAPERIENT AND STOMACHIC PROPAR, I tion of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest medical authorities, both in Europe and the United States, and prescribed in their practice.

The averagence of thousands daily review that the same of the same o The experience of thousands daily proves that no preparation of Iron can be compared with it. Imparities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innox-nous in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

of acute disease or of the continued diminution of hervous and muscular energy from chronic complaints, one trial of this restorative has proved suc-cessful to an extent which no description nor writ-ten attestation would render credible. Invalids so long bed ridden as to have become forgotten in their long bed ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested or lemate sufferers, emaciated victims of apparent marasmus, sanguneous exhaustion, critical changes, and that complication of pervous and dy-peptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reason familiar to medical men, the operation of this prepa ration of lion must necessarily be salutary, for, un-like the old oxides, it is vigorously tonic, withoubeing exciting and over-heating; and gently regut larly aperieni, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.
It is this latter property, among others, which makes it so remarkably effectual and permanent a

remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them. In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often suffi-

single box of these Chalybeate Pills has often sufficed for the most habitual cases.
In unchecked Diarrhaa, even when advanced to
Dystentery, confirmed, emaciating and apparently
malignant, the effects have been equal decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent heetic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, inseveral very gratifying and interesting instances. In Scrofulous Tuberculosis, this medicated iron has had far more the good effect of the most cautiously balanced preparations of iodine, without any of their well-known flabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them. ses pecularly affecting them.

In Rheumatism, both chronic and inflammatory, in the latter, however, more decidedly, it has been invariably well reported, both as alleviating pain

and reducing the swellings and stiffness of the joints

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will pro-bably be one of high renown and usefulness. No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt hap-py and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful

exercise, immediately follow its use.
