ROHRER'S PRACTICAL CALCULATOR.
A Book of Plain Rules and Calculations for Business Operation, By Martin M. Rohrer, Practical Surveyor and Conveyancer. New Edition, Published by J. B. Lippincott & Co., Philadelphia.
This work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical, such as are necessary to be able at a moment, by reference, to arrive at the true result. The calculator differs in this respect from all other works of the kind, and kindred works—it is a key to practical business calculations—it is, in the hands of the business man, what the key to mathematical works is in the hands of the teacher in the school-room—it facilitates time and insures correctness.
Every example in the book is worked out in full and tabulated in plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in readily solving it; in a word, the general arrangement of the Calculator is so simple, that any one who knows how to add, subtract, multiply, or divide, can easily solve any ordinary example that arises in business, or arrive at the result of any estimate, or be able to do so at a moment, by reference, to arrive at the true result. The calculator differs in this respect from all other works of the kind, and kindred works—it is a key to practical business calculations—it is, in the hands of the business man, what the key to mathematical works is in the hands of the teacher in the school-room—it facilitates time and insures correctness.

THE WORK TREATS OF THE
Measurement of Land, of Lumber, of Brick and Brick Work, of Stone and Stone Work, of Grain and Grain Bins, of Coal and Coal Bins, of Wood, of Solids, of Liquids, of Circular, of Square, or Irregular Vessels, of Cisterns and Vats, of Roofing, of Plasterers, Painters, Glaziers, Pavers, Plumbers, Paper Hangings, and Upholsters, Work. It treats of Currency and of Foreign and Domestic Exchange of the Decimals System, of Reduction and its extended application to Business, of Simple and Compound Interest, and their entire application to Business transactions, with the laws and usages governing and regulating the same, together with numerous Commercial Forms—of Legal Tender, of Partial Payments on Notes, of Bankruptcy, of Discount of Equations of Payments and Partnership Accounts, of Assessment of Taxes, of Weights and Measures, of Square and Cubic Measure, of the Square Root and its application to Business, of Surfaces, of Excavation, and of many other important practical matters not within the scope of an advertisement to mention.
